

Report on NIH Collaboration with Other HHS Agencies for FY 2008

Background

Section 403A(a) of the Public Health Service (PHS) Act (added to the PHS Act by Section 104 of the National Institutes of Health Reform Act of 2006) requires that the NIH Director forward to the HHS Secretary an annual report on NIH's collaborations¹ with other HHS Agencies².

NIH's collaborative efforts with her sister agencies are a critical component of the HHS mission to protect the health of all Americans and provide essential human services, especially for those who are least able to help themselves. As the Nation's leading medical and behavioral research institution, NIH is dedicated to the pursuit of fundamental scientific knowledge about living systems and the application of that knowledge to improve people's health and reduce the burden of disease. Our collaborations with HHS agencies promote the translation of NIH's research to community health practice, coordinate a range of health programs and policies, enable better tracking of patient safety initiatives, and optimize agency efforts to reduce health disparities.

Many of these NIH/HHS collaborative efforts are longstanding – some launched over three decades ago. As an example, the Diabetes Mellitus Coordinating Committee (DMICC) was formed in 1974³ to facilitate cooperation, communication, and collaboration on diabetes, a disease that now affects nearly 24 million people in the United States. Members identify emerging issues and opportunities and develop ways for HHS agencies to work together and build upon each other's expertise and resources. The National Health and Nutrition Examination Survey (NHANES)⁴ represents another enduring collaboration that has provided important data on a wide range of chronic conditions since 1976.

Scope of the Report

The NIH collaborated with 11 of 12 HHS agencies on 630 activities: 394 activities for which NIH did not provide funding and 236 activities funded with contributions from NIH totaling \$376,903,053 (Figure 1). The categories of collaborations include Committees/Meetings, Databases, Disease Registries, Health Surveys, Information Clearinghouses, Public Education Campaigns, Research Initiatives, Training Initiatives, and Workgroups/Workshops (Figure 2). NIH also collaborates with ten HHS agencies to provide over \$64 million of information technology (IT) services. The non-funded collaborations rely chiefly on NIH's intellectual input, typically in the form of committees or meetings. More than half of the funded collaborations are through Research Initiatives (Figure 2; Table 1). Training plays an integral role in collaborations: NIH support for training at AHRQ and HRSA through the Ruth L. Kirschstein National Research Service Awards alone totaled nearly \$16M in FY2008⁵.

¹Collaborations are defined as activities that NIH works on together with sister HHS agencies. Such activities include meetings or workshops, training or research initiatives, infrastructure (e.g. databases, disease registries, health surveys) or dissemination (e.g. information clearinghouses, public education campaigns). Collaborations can also involve activities led by outside organizations, such as the National Academies.

²The collaborating HHS agencies include the Administration for Children and Families (ACF), Agency for Healthcare Research and Quality (AHRQ), Administration on Aging (AoA), Agency for Toxic Substances & Disease Registry (ATSDR), Centers for Disease Control and Prevention (CDC), Centers for Medicare and Medicaid Services (CMS), Food and Drug Administration (FDA), Health Research Services Administration (HRSA), Indian Health Service (IHS), Office of the Secretary, HHS (OS), Office of the Surgeon General (OSG), and Substance Abuse and Mental Health Services Administration (SAMHSA).

New NIH collaborations reported for FY 2008 include a number of activities focused on genomics: a research initiative, the CMS Evidentiary Priorities, which engages partners across the public health sector to achieve the promise of genomics in healthcare and disease prevention⁶; a research initiative on methods for genetic epidemiology⁷; curriculum development in genomics and genetics for nurses⁸; workshops on Personal Genomics⁹ and Gene Delivery to the Nervous System¹⁰; a new genome-wide association working group (GWA WG)¹¹; and a committee on Genomic Applications in Practice and Prevention Network (GAPPNet)¹². Other new collaborations are directed to underserved populations, including the Quality Care research initiative with CMS¹³, which aims to improve the care for Medicare beneficiaries afflicted with diabetes and chronic kidney disease (CKD); and the National Network to Eliminate Disparities in behavioral health (NNED)¹⁴. Infectious diseases that pose a global public health concern because of resistance to existing antibiotics, such as community-associated Methicillin-Resistant *Staphylococcus aureus* (MRSA), are addressed in new research initiatives to develop enhanced diagnostics, prophylactic agents and new treatments¹⁵. New approaches to autism were explored through a workshop on mitochondrial diseases of the brain and potential links to autism¹⁶. A number of start-up collaborations addressed prevention, including preterm births¹⁷ and fetal alcohol spectrum disorder¹⁸.

Our nation's escalating healthcare costs are focusing attention on comparative effectiveness research (CER) as a solution to the widely recognized “evidence gap” plaguing medical practice. The NIH has a rich tradition of supporting clinical research – including CER - that is essential for providing evidence in medicine. Some of the landmark CER trials benefitted from interactions between NIH and other HHS agencies. NIH collaborated with CMS on the National Emphysema Treatment Trial (NETT)¹⁹ of Lung-Volume-Reduction Surgery (LVRS) to clarify the short- and long-term risks and benefits of this expensive intervention, and the Long-Term Oxygen Treatment Trial (LOTT)²⁰ to evaluate whether home oxygen therapy is beneficial for chronic obstructive pulmonary disease (COPD) patients with moderate hypoxemia. Together with CDC and IHS, NIH conducts studies on diabetes and obesity in underserved populations, including the Diabetes Prevention Program Outcomes Study (DPPOS)²¹, Treatment Options for Type 2 Diabetes in Adolescents and Youth (TODAY)²², Action to Control Cardiovascular Risk in Diabetes (ACCORD)²³, and Look AHEAD (Action for Health in Diabetes)²⁴. Many points of contact and collaboration exist between NIH and other agencies to support a federal CER infrastructure. For example, the ClinicalTrials.gov database (www.clinicaltrials.gov)²⁵, an influential national resource for clinical investigators and the public, was established by NLM and recently extensively revised in collaboration with the FDA.

Intra-HHS collaborations can provide patients, policymakers, and other health care leaders with additional knowledge for making critical health care decisions. Dissemination of research results is key to this decision-making. In collaboration with OS on “The Heart Truth” campaign²⁶, nearly 16,500 people have been screened for heart health-related risk factors at Heart Truth Road Show events across the country and 69 percent of women were aware that heart disease is the leading cause of death among women, up from 34 percent in 2000. NIH partnered with CDC for the Know Stroke in the Community (KSIC) campaign²⁷ that recruits “Stroke Champions” in each community who are trained to use NIH stroke education materials. The campaign's target audiences are those at high risk for stroke – primarily African Americans, Hispanics, and people over the age of 50 – and their family members, caregivers and health care providers. A 2008 workshop on “Accelerating the Dissemination and Translation of Clinical Research into Practice”²⁸ should spur collaborative efforts in this area.

Major Partners in NIH Collaborations for FY2008

NIH continues to heavily invest in a spectrum of activities with other HHS sister agencies as evident in the individual collaborations listed in Table 1, with most of the NIH dollars funding collaborations with the CDC (\$218,163,805; Figure 3) and FDA (\$89,404,580; Figure 3). For both CDC (Figure 4) and FDA (Figure 5), half of the collaborations involve committees/meetings. Research initiatives represent 17% of the collaborations with the FDA (Figure 5) and only 18% of collaborations with the CDC (Figure 4). Three quarters of the NIH collaborations with CMS consist of committees/meetings or workgroups/workshops (Figure 6). A similar pattern occurs with HRSA, SAMHSA ACF, AoA and ATSDR (Figure 7). With the IHS, research initiatives are a prominent part of the portfolio (Figure 7). Additional notable collaborations with NIH's major HHS partners are cited below.

NIH and AHRQ

NIH contributed over \$4M to the Building Interdisciplinary Careers for Women's Health Research (BIRCWH)²⁹, a program that pairs junior investigators conducting research on women's health with senior investigators. AHRQ also partners with NIH on health care services as part of the many research initiatives that NIH conducts through the IHS Native American Research Centers for Health (NARCH)³⁰.

NIH and CDC

CDC and NIH jointly support surveillance efforts such as NHANES^{4,31} and SEER²², two vitally important tools for measuring disease trends and comparative treatment patterns, assessing health disparities, and developing hypotheses for future studies. Synergies between CDC and NIH also arise in initiatives such as the Models of Infectious Disease Agent Study (MIDAS)³³, in which researchers are developing computational models of interactions between infectious agents and their hosts, disease spread, prediction systems and response strategies. These models will be invaluable for policymakers, public health workers, and other researchers who must respond to emerging infectious diseases.

NIH and CMS

The Frequent Hemodialysis Network (FHN) initiative with CMS is a randomized clinical trial to compare the benefits of a conventional schedule of dialysis to a more frequent regime³⁴. In another research initiative with CMS, NIH invested \$6.5M in FY2008 for trials of islet transplantation in Medicare beneficiaries through the Clinical Islet Transplantation Consortium³⁵.

NIH and FDA

FDA and NIH joined forces on the Biomarkers Consortium³⁶, a public-private partnership managed by the Foundation for the NIH (FNIH). This partnership was established to develop quantifiable biologic markers ("biomarkers") to monitor responses to interventions and to serve as probes in detecting disease. One success of the Biomarkers Consortium is the Alzheimer's Disease Neuroimaging Initiative (ADNI)³⁷, which examines older people with mild cognitive impairment or the early stages of Alzheimer's by imaging and testing for changes in certain proteins, including proteins released by damaged brain cells. Validating biomarkers is another important area of

FDA-NIH collaboration, such as in the AACR-FDA-NCI Cancer Biomarkers collaborative³⁸. FDA's JANUS data repository³⁹ is being developed with NCI input to share knowledge and resources to speed the delivery of new cancer drugs to patients. The FDA, along with AHRQ, CDC, NIH and OS, contributes to the Federal Safety Reporting Portal, an on-line tool for the collection and routing of both pre-and post market safety data. This portal will allow clinical care providers and investigators to prepare a single report on adverse events, using a standardized format, and submit this information electronically to the federal government⁴⁰.

Prospectus

Given the complexity of the process for translating a new basic scientific discovery into a readily accessible treatment for Americans, the NIH and its sister HHS agencies realize the strategic importance of collaborations. Apart from building the Nation's health infrastructure, the intra-HHS collaborations target our most pressing diseases, including AIDS, emerging infectious disease, cardiovascular disease, type 2 diabetes and obesity, cancer, autism and other mental disorders. Importantly, while many collaborations involve large amounts of funding, the majority of collaborations rely on exchanges of ideas to deliver the best health care available to the American people. The NIH welcomes this opportunity to report to HHS on the vibrant nature of our FY 2008 collaborations within the Department. As our report details, many of these collaborations have been ongoing for decades, however, NIH continues to form new collaborations when emerging issues and needs arise.

Figure 1: FY 2008 NIH Collaborative Activities and Funding Contributions with HHS Agencies by Agency

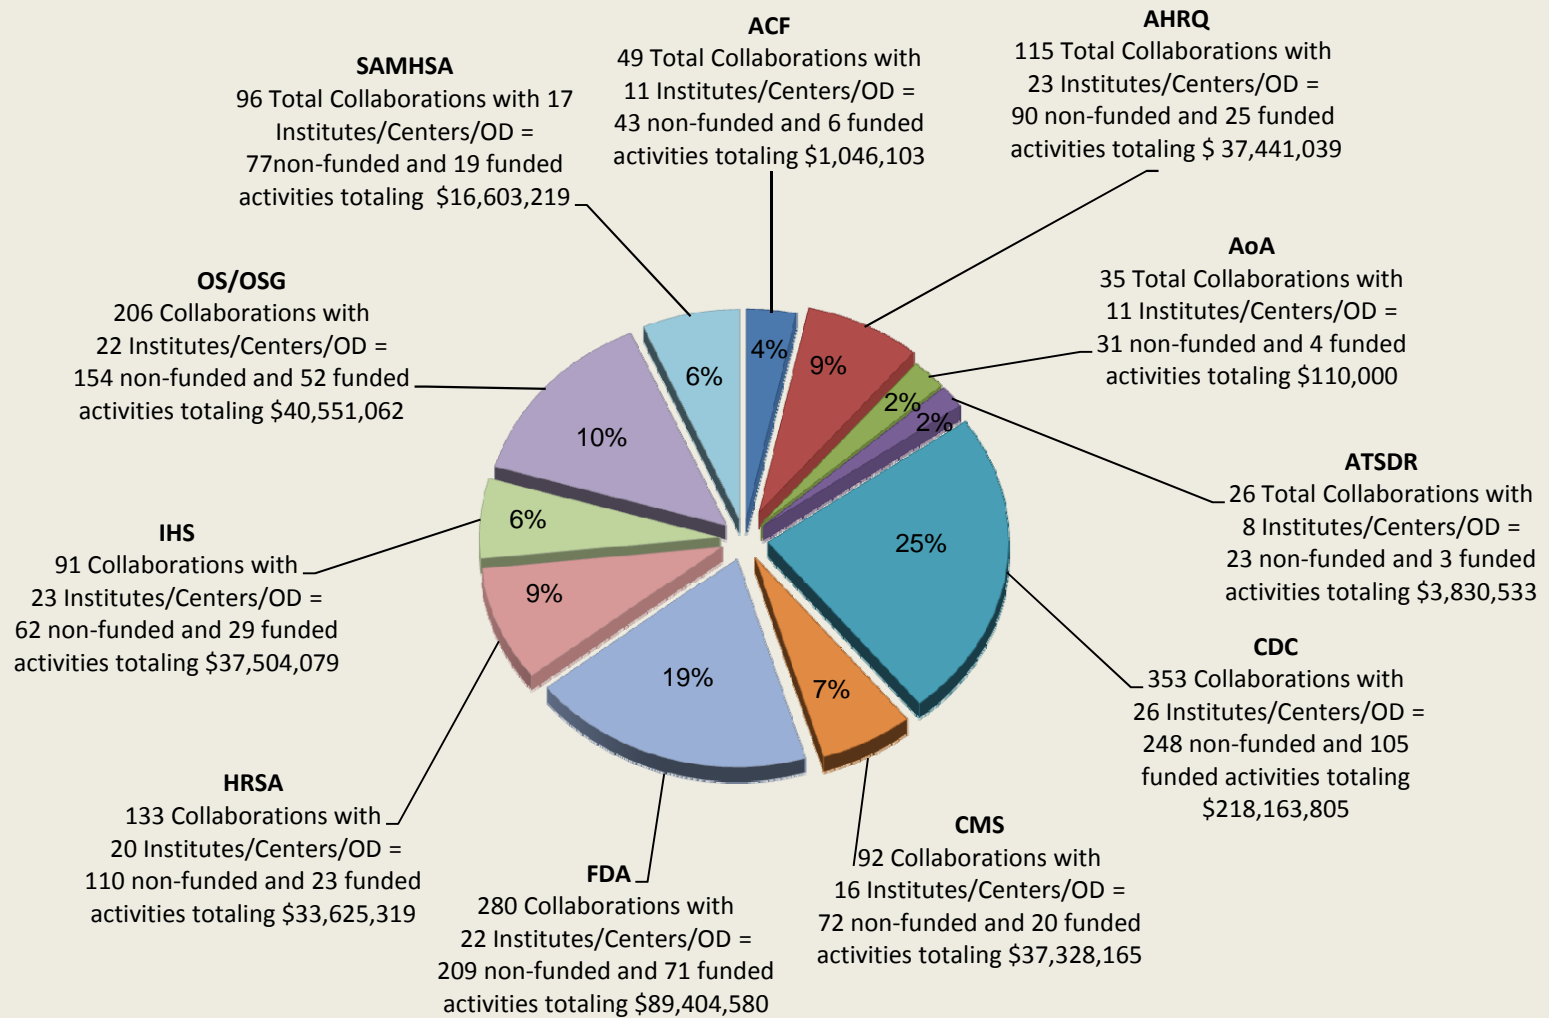

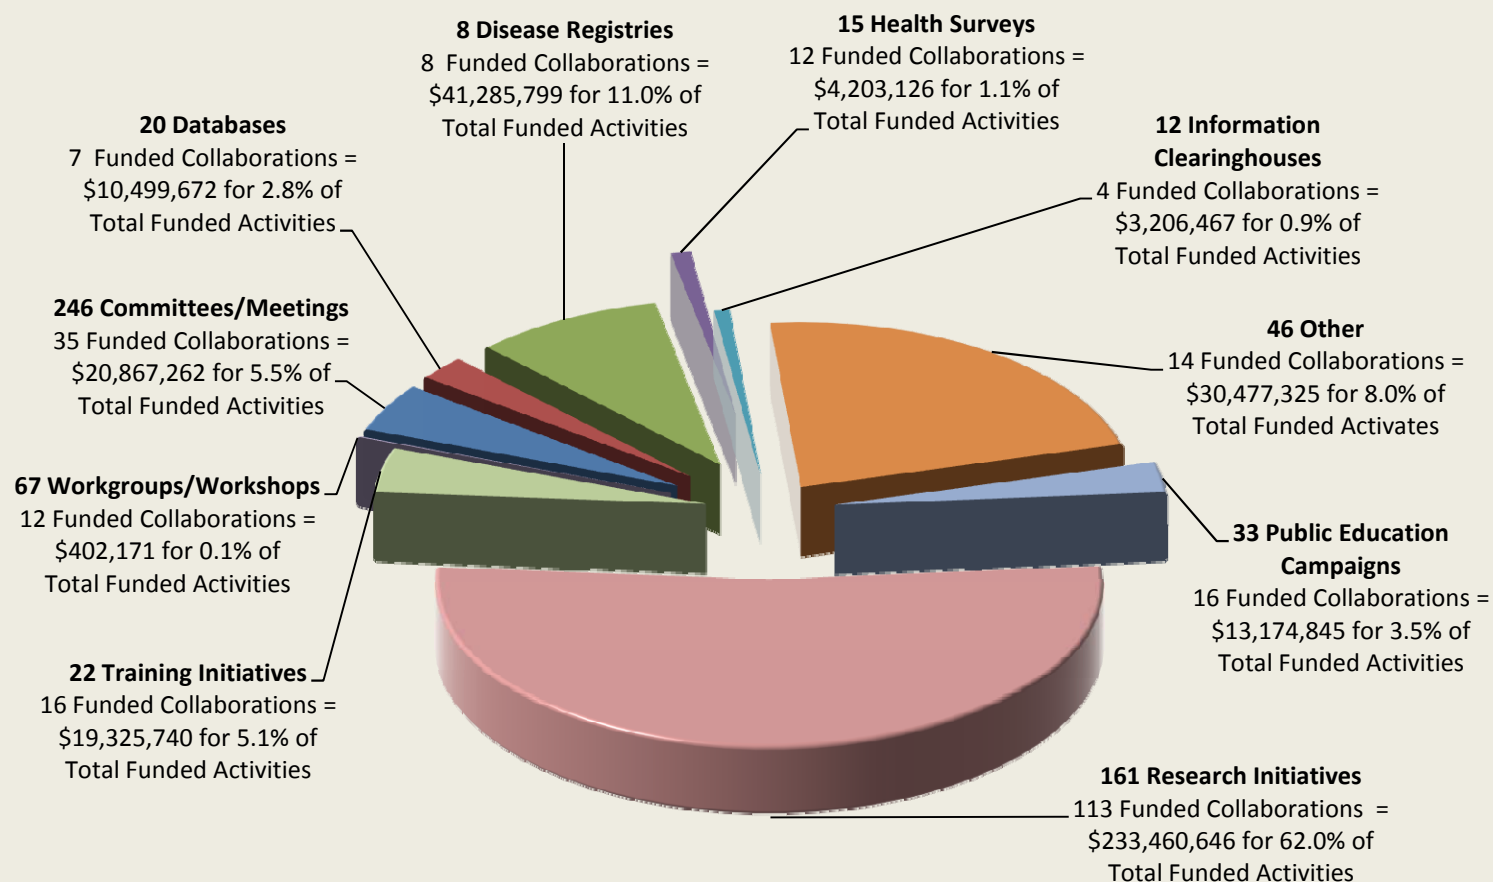

Chart reporting includes multiple collaborative efforts for single initiatives across the NIH and with HHS agencies, and thereby exceeds the total collaborative NIH efforts of 630 submissions.

Figure 2: FY 2008 NIH Collaborative Activities and Funding Contributions with HHS Agencies

Total NIH Collaborations = 630 Total Funded Collaborations = 236 Total NIH Funding = \$376,903,053¹

¹Total NIH funding contributions for all categories combined totals \$ 376,903,053.

²Each funding percent represents the total NIH dollars contributed for a particular category divided by the total NIH dollars contributed for all 236 funded collaborations in FY 2008. The 394 non-funded collaborations are not included.

³Other collaborations include, but are not limited to data service, data content, detailed personnel, logistical support, standards development, and policy initiatives.

FY 2008 Report on NIH Collaborations With Other HHS Agencies

Collaboration Title and Link (Asterisk denotes Comparative Effectiveness Research*)	Type of Collaboration	Brief Description of Collaboration	Participating HHS Agencies	Year Collaboration Originated	Total NIH Funding Contribution in FY 2008
2007 National HIV Prevention Conference Planning Committee	Committee/Meeting	Conference covers the entire spectrum of HIV prevention, from science to programs. It convenes HIV prevention experts and advocates from various backgrounds and communities nationwide.	CDC/FDA/HRSA/IHS/SAMHSA	2006	0
AACR-FDA-NCI Cancer Biomarkers Collaborative (Analytical Validation Committee)*	Committee/Meeting	Facilitates the use of validated biomarkers in clinical trials and ultimately in evidence-based oncology and cancer medicine.	FDA	2007	0
Accelerating the Development of Treatments and Cures for Rare Diseases	Committee/Meeting	The Institute of Medicine will convene an ad hoc committee of experts to conduct an independent assessment of the current strategies and incentives for the development of therapies for rare diseases and to make recommendations to improve these strategies and incentives and shorten the timeline for development of new treatments and cures.	FDA	2008	1,388,376
Ad-Hoc Interagency Working Group on the Health Effects of Climate Change	Committee/Meeting	Inter-agency planning and coordination committee to develop a strategic research plan for the US Government on the health implications of global climate change.	CDC	2008	0
Adolescent Over-the-Counter (OTC) Drug Product Use: A Public Workshop	Committee/Meeting	The workshop helped gain an understanding of current use of OTC drug products by adolescents, including adolescent decision-making skills (compared with adult skills) and other factors influencing adolescent OTC drug product use.	FDA	2007	10,000
Advisory Commission on Childhood Vaccines	Committee/Meeting	The ACCV advises and makes recommendations to the Secretary of Health and Human Services on issues relating to the operation of the National Vaccine Injury Compensation Program (VICP). There are nine voting members who provide oversight of the VICP and recommend ways to improve the VICP.	CDC/FDA/HRSA/OS	2006	0
Advisory Committee for the Elimination of Tuberculosis (TB)	Committee/Meeting	The Committee provides advice and recommendations regarding the elimination of tuberculosis to the Secretary, HHS, the Assistant Secretary for Health, and the Director, CDC.	AHRQ/FDA/HRSA/IHS/OS/SAMHSA	1995	0
Advisory Committee on Childhood Lead Poisoning Prevention	Committee/Meeting	The overall goal of the ACCLPP is to provide advice that will assist the nation in reducing the incidence and prevalence of childhood lead poisoning.	CDC	1998	0
Advisory Committee on HIV and STD Prevention and Treatment	Committee/Meeting	The Committee advises the Director, CDC, and the Administrator and Associate Administrator for HIV/AIDS, HRSA, regarding objectives, strategies, policies, and priorities for HIV and STD prevention and treatment efforts including surveillance of HIV infection, AIDS, STDs, and related behaviors; epidemiology; identification of policy issues; and programmatic efforts to prevent and treat HIV and STDs.	AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/SAMHSA	2003	0
Advisory Committee on Immunization Practices	Committee/Meeting	The overall goals of the ACIP are to provide advice that will lead to a reduction in the incidence of vaccine preventable diseases in the United States, and an increase in the safe use of vaccines and related biological products.	CDC	2007	0
Advisory Committee on Organ Transplantation	Committee/Meeting	The Advisory Committee was established to assist the HHS Secretary in enhancing organ donations, ensuring that the system of organ transplantation is grounded in the best available medical science, providing public assurances that the system is as effective and equitable as possible, and increasing public confidence in the integrity and effectiveness of the transplantation system.	CDC/CMS/FDA/HRSA/OS	2004	0

Advisory Council for Blood Stem Cell Transplantation (ACBSCT)	Committee/Meeting	The C.W. Bill Young Cell Transplantation Program provides support to patients who need a potentially life-saving bone marrow transplant (BMT) or cord blood transplant. For some patients who have leukemia, lymphoma, sickle cell anemia or other inherited metabolic or immune system disorders, a marrow or cord blood transplant may be their best chance to live longer, healthier lives.	CDC/CMS/FDA/HRSA	Unreported	0
AIDSinfo	Committee/Meeting	Provides information on HIV/AIDS Treatment, Prevention, and Research as well as updated Guidelines for treatment and links to relevant clinical trials.	CDC/CMS/FDA/HRSA/IHS/OS/SAMHSA	2002	0
All-Ireland-NCI Cancer Consortium	Committee/Meeting	MOU between HHS and the ministries of health of Ireland and Northern Ireland to reduce the incidence and mortality of cancer in Ireland, which has one of the the highest rates of cancer in the Western world. The Consortium is regarded as a major step toward enhancing diplomatic relations between the U.S., Ireland, and Northern Ireland, bringing the governments of the U.S. and both parts of the island together in the fight against cancer.	OS	1999	350,000
American Conference for the Treatment of HIV (ACTHIV)	Committee/Meeting	ACTHIV is a non- profit organization established in 2006 for the sole purpose of producing and executing an annual treatment education conference for frontline HIV care providers.	CDC/HRSA/OS	2004	364,026
Annual National Prevention: Prevention, Preparedness, and Promotion	Committee/Meeting	Annual conference highlights steps for communities to implement chronic disease prevention and health promotion programs that target three major chronic diseases—diabetes, obesity, and asthma and their underlying risk factors of physical inactivity, poor nutrition, and tobacco use.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2003	10,000
Autism Coordinating Committee	Committee/Meeting	Committee coordinates all efforts within the Department of Health and Human Services (HHS) concerning autism spectrum disorder (ASD). Through its inclusion of both Federal and public members, the Committee helps to ensure that a wide range of ideas and perspectives are represented and discussed in a public forum.	AHRQ/CDC/FDA/HRSA/SAMHSA	1997	0
BARDA (Biomedical Advanced Research and Development Authority) Product Development Tools Working Group	Committee/Meeting	This group evaluates R&D tools (animal models and facilities) needed for medical countermeasure development to identify gaps and needs.	CDC/FDA/OS	2007	0
BARDA (Biomedical Advanced Research and Development Authority) Radiation Countermeasures Requirements Working Group	Committee/Meeting	This group determines medical treatment requirements for radiological and nuclear contingencies.	CDC/FDA/OS	2003	0
BARDA (Biomedical Advanced Research and Development Authority) Radiological/ Nuclear Integrated Program Team	Committee/Meeting	This group determines overall radiation countermeasures strategy and priorities.	CDC/FDA/OS	2007	0
BARDA (Biomedical Advanced Research and Development Authority) Radiological/ Nuclear Working Group on Blood and Tissue Products	Committee/Meeting	This group coordinates requirements, needs, and R&D directions for blood and tissue products for mass casualty treatment after a radiation emergency.	CDC/FDA/OS	2007	0
BARDA (Biomedical Advanced Research and Development Authority) Acute Radiation Syndrome Dosimetry Working Group	Committee/Meeting	This group determines dosimetry requirements for radiological and nuclear contingencies.	CDC/FDA/OS	2007	0
BARDA (Biomedical Advanced Research and Development Authority) Blood and Tissue Requirements Working Group	Committee/Meeting	Public health preparedness for and in response to biological, chemical, radiological and nuclear agents that could pose national security/public health threat.	CDC/FDA/HRSA/OS	2006	0
BARDA (Biomedical Advanced Research and Development Authority) Project Coordination Team	Committee/Meeting	This group addresses influenza diagnostics and coordinates HHS-CDC diagnostic initiatives and contracts.	CDC/FDA/OS	2007	0

Blood Product Advisory Committee	Committee/Meeting	The Blood Products Advisory Committee (BPAC) reviews and evaluates available data concerning the safety, effectiveness, and appropriate use of blood, products derived from blood and serum or biotechnology, which are intended for use in the diagnosis, prevention, or treatment of human diseases.	CDC/FDA/OS	2003	0
Blood Safety Committee	Committee/Meeting	Works with the responsible government entities and the blood-banking industry on broad issues such as working with FDA on a more efficient regulatory framework for blood, plasma and related products.	CDC/CMS/FDA/HRSA/OS	2003	0
Blood Safety Committee	Committee/Meeting	Governmental and blood banking industry working to explore and develop ideas with FDA for more efficient regulatory system for blood and plasma products.	CDC/FDA	1997	0
Board of Scientific Counselors Meetings for National Center for Public Health Informatics	Committee/Meeting	NCPHI is helping to define informatics through innovative approaches to electronically connect public health information using the most efficient and effective means.	CDC	2008	0
Brain Attack Coalition	Committee/Meeting	Professional, voluntary and governmental entities dedicated to reducing the occurrence, disabilities and death associated with stroke.	CDC	2002	0
Brazil-US Working Group on Public Health	Committee/Meeting	This committee formed under the US-Brazil Joint Commission on Scientific and Technological Cooperation is focused on collaboration and joint research in HIV/AIDS, neglected tropical diseases, TB, malaria, and non-transmissible chronic disease.	FDA/OS	2007	0
Capital Planning Investment Control (CPIC)	Committee/Meeting	Capital Planning and Investment Control (CPIC) is the Department of Health and Human Services' (HHS) primary process for making investment decisions, assessing investment process effectiveness, and refining investment policies and procedures related to information technology.	AHRQ/CDC/CMS/FDA/HRSA/OS/SAMHSA	Unreported	0
Carrier Screening Conference	Committee/Meeting	Summary of population-based carrier screening for genetic pre-disposition for disease; reproductive risks; acquired disease; testing to inform/alter therapeutic approaches (e.g., pharmacogenetics); and metabolic/proteomic screening for disorders	CDC/HRSA	2008	0
Center for Excellence Expert Panel, SAMHSA Fetal Alcohol Spectrum Disorders Center for Excellence (FASD CE)	Committee/Meeting	The FASD Center for Excellence Expert Panel provides advice and guidance to SAMHSA on a range of issues related to FASD and the SAMHSA FASD CE.	SAMHSA	2008	0
Centers for Medicare & Medicaid Services Evidentiary Priorities Initiative*	Committee/Meeting	Collaborative initiative involves partners from across the public health sector who are working together to realize the promise of genomics in healthcare and disease prevention.	AHRQ/CDC/CMS	2008	0
Chronic Fatigue Syndrome Advisory Committee	Committee/Meeting	The Chronic Fatigue Syndrome Advisory Committee (CFSAC) provides advice and recommendations to the Secretary of Health and Human Services via the Assistant Secretary for Health of the U.S. Department of Health and Human Services on issues related to chronic fatigue syndrome (CFS).	CDC/FDA/HRSA/OS	2003	0
Clinical Data Acquisition Standards Harmonization (CDASH) initiative led by Clinical Data Interchange Standards Consortium (CDISC)	Committee/Meeting	The CDISC mission is to develop and support global, platform-independent data standards that enable information system interoperability to improve medical research and related areas of healthcare.	FDA	2006	0
Clinical Guidelines Leadership Group for Cardiovascular Risk Reduction	Committee/Meeting	This Clinical Guidelines Leadership Group meeting launched an expanded initiative to develop and promote clinical guidelines to reduce the risk for CVD.	AHRQ/CDC/CMS/FDA/HRSA/IHS	2007	100,000
Clinical Obesity Research Panel (Formerly National Task Force on Prevention and Treatment of Obesity)	Committee/Meeting	Leading obesity researchers and clinicians are charged with providing advice to the NIDDK Advisory Council on important clinical research needs related to obesity prevention and treatment, including their relative priority and costs.	CDC	1991	0

Closing the Gaps in Services to Infants and Young Children with Hearing Loss Working Group*	Committee/Meeting	Group identifies gaps in service delivery and recommends solutions for closing the gaps for this population of children in states and regions throughout the Nation.	ACF/AHRQ/CDC/CMS/HRSA/IHS	2005	0
Collaborative Assessments of Genomic Technologies intended for Cancer Screening and Early Diagnosis	Committee/Meeting	NCI's PDQ Cancer Genetics Editorial Board is collaborating with CDC's EGAPP (Evaluation of Genomic Applications in Practice and Prevention) Working Group on a periodic, <i>ad hoc</i> basis in the assessment of new genomic technologies for screening or early diagnosis devices.	CDC	2008	0
Collaborative Islet Transplant Registry Ad Hoc Scientific Advisory Committee	Committee/Meeting	The Collaborative Islet Transplant Registry (CITR) expedites progress and promotes safety in islet/beta cell transplantation through the collection, analysis, and communication of comprehensive data on all islet/beta cell transplants performed in North America, as well as in some European and Australian centers. The Committee oversees these activities.	CMS/FDA/HRSA	2004	0
Committee on Radiation and Nuclear Radiation Medical Countermeasures	Committee/Meeting	Participates in reviewing national standards for radiation safety.	CDC/FDA/HRSA/OS	2006	0
Committee on Radiation and Nuclear Radiation Medical Countermeasures	Committee/Meeting	Participates in reviewing national standards for radiation safety.	CDC/FDA/HRSA/OS	2006	0
Committee to Discuss Scientific Issues Concerning Influenza	Committee/Meeting	This committee continues the ongoing exchange of scientific information about the diagnosis and treatment of influenza.	CDC	2008	0
Committee to Discuss the Development of Antiviral Influenza Therapeutics	Committee/Meeting	The goal of this committee is to discuss a range of issues relevant to the development of antiviral drugs for the treatment of influenza.	OS	2008	0
Committee Work with HHS Office of the National Coordinator for Health Information Technology (ONC)	Committee/Meeting	Supports the development, enhancement, and distribution of a standardized vocabulary to facilitate the exchange of clinical data and improve retrieval of health information.	OS	2008	0
Consultation on HIV Prevention in African American Communities – Challenges and Missed Opportunities	Committee/Meeting	One day consultation with senior and mid-level African American HIV-prevention investigators identified the ongoing challenges in HIV prevention among African Americans.	CDC	2007	35,000
Co-occurring Disorders Center for Excellence (COCE)	Committee/Meeting	The COCE was the first national resource for the field of co-occurring mental health and substance use disorders (COD).	SAMHSA	2004	0
Coordinating Committee – trials and data sharing	Committee/Meeting	Sharing of United States Renal Data System (USRDS) data (see www.usrds.org).	CMS	2005	0
Coordinating Committee on Women's Health	Committee/Meeting	Committee advises the Assistant Secretary for Health on current and planned activities across DHHS that would safeguard and improve the physical and mental health of all women in the United States.	CMS	1983	0
Council on Emergency Medical Care	Committee/Meeting	Provides strategic and operational support to the HHS Emergency Care Coordinating Committee (ECCC) through policy-level guidance and interdepartmental and interagency collaboration for ongoing and future Federal efforts that address daily emergency medical care issues in the US.	ACF/AHRQ/CDMS/FDA/HRSA/OS	2008	0
Countermeasures Against Chemical Threats (CounterACT) Research Network Annual Symposium	Committee/Meeting	The CounterACT network conducts basic, translational, and clinical research aimed at the discovery and/or identification of better therapeutic and diagnostic medical countermeasures against chemical threat agents, and facilitates their movement through the regulatory process.	CDC/FDA/OS	2006	217,544
Cytokine Interest Group	Committee/Meeting	Three mini-symposia per year are organized and prizes are awarded for the best publication by an NIH/CBER postdoctoral trainee.	FDA	1996	0
Development of Standards of Care Regulations for Sanctuary Chimpanzees Committee	Committee/Meeting	Committee members published their recommendations on the standards of care and regulations for sanctuary chimpanzees in 2008.	ATSDR/FDA	2002	0
Diabetes Education and the Community	Committee/Meeting	This meeting was to discuss CMS Diabetes Education Community Programs.	CMS	2008	0

Diabetes Mellitus Coordinating Committee (DMICC)	Committee/Meeting	The DMICC meetings, held several times a year, help members identify emerging issues and opportunities and develop ways in which different government components can work together and build upon each other's expertise and resources.	AHRQ/CDC/CMS/ FDA/HRSA/IHS/OS/ SAMHSA	1974	0
Dietary Guidance Review Committee	Committee/Meeting	This committee reviews draft nutrition materials developed by all federal agencies and fulfills the legislative mandate (1990 NNMRRA) to ensure that federal dietary guidance is consistent with the <i>Dietary Guidelines for Americans</i> and is scientifically accurate.	ACF/AoA/CDC/FDA /HRSA/IHS/OS	1990	0
Diet-Induced Methylation in the Pre-neoplastic Liver	Committee/Meeting	Examine DNA methylation changes in hepatic tissue of methyl deficient animals and investigate dietary manipulations which may similarly impact epigenetic events during preneoplasia – to provide evidence that early detection, prevention, and correction of epigenetic alterations may be a crucial decisive factor in cancer prevention strategies.	ACF	Unreported	60,000
Digestive Diseases Interagency Coordinating Committee (DDICC)	Committee/Meeting	The DDICC promotes information acquisition and exchange, as well as facilitates cooperation and collaboration among relevant Federal health agencies to provide a coordinated effort to combat digestive diseases.	AHRQ	1985	0
Division of Adolescent and School Health on Noise-Induced Hearing Loss (NIHL)	Committee/Meeting	This committee reviews materials for a website to promote hearing health in school-age youth.	CDC	2007	0
Drug Induced Liver Injury Network (DILIN)	Committee/Meeting	Three FDA employees (2 from the Center for Drug Evaluation and Research, and 1 from the Center for Food Safety and Applied Nutrition) are ad hoc members on this committee that oversees network activities.	FDA	2003	2,272,411
Drug Safety Oversight Board	Committee/Meeting	This committee reviews arising safety issues of licensed drugs.	FDA	Unreported	0
Early Hearing Detection and Intervention, teleconference sponsored by CDC	Committee/Meeting	Early intervention programs are designed to help infants and children develop communication skills needed to do well academically and socially. The committee supports these goals.	CDC	2007	0
Elder Mistreatment	Committee/Meeting	This DHHS and DOJ working group shares information on current and planned initiatives and reviews research findings on elder mistreatment.	AoA/CDC/OS	2004	0
Emergency Medical Services for Children (EMSC)	Committee/Meeting	Program designed to improve the quality and quantity of research related to emergency medical services for children (EMSC), with the goal of reducing morbidity and mortality in children through improved care delivery.	AoA/AHRQ/CDC/ FDA/HRSA/SAMHSA	2003	0
Emerging Infectious Diseases Program	Committee/Meeting	Through this annual meeting, NIH and CDC coordinate the research that each agency is funding in China.	CDC/OS	1990	0
Endocrinologic and Metabolic Drugs Advisory Committee	Committee/Meeting	Provides non-binding recommendations for the development of drugs and therapeutic biologics regulated within the Center for Drug Evaluation and Research at the Food and Drug Administration (FDA) for the treatment of diabetes mellitus.	FDA	2008	0
Enterprise Architecture Review Board (EARB)	Committee/Meeting	The EARB is responsible for assessing the existing and target IT architectures as well as providing guidance in resolving cross-cutting IT architecture issues and problems within their OPDIVs and across HHS. In addition, the EARB reviews Departmental IT Investments for EA compliance and alignment.	ACF/AHRQ/CDC/CMS /FDA/HRSA/IHS/ OS/SAMHSA	2004	0
Enterprise Governance Board and Enterprise Executive Committee	Committee/Meeting	Board and committee advise Secretary, HHS on emergency preparedness and protection of the civilian population from acts of bioterrorism and other public health emergencies.	CDC/FDA/OS	2007	0

Enterprise Lifecycle (EPLC) Workgroup	Committee/Meeting	This workgroup holds monthly meetings to coordinate EPLC activities across HHS. NIH leads the workgroup, for which there is broad participation from all OpDivs.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	Unreported	0
Enterprise Performance Life Cycle (EPLC) "Lessons Learned" meetings.	Committee/Meeting	Conference calls to discuss EPLC lessons learned.	AHRQ/CDC/CMS/FDA/HRSA/OS/SAMHSA	Unreported	0
Evaluation of Genomic Application in Practice and Prevention (EGAPP)	Committee/Meeting	Initiative supports a coordinated, systematic process for evaluating genetic tests and other genomic applications that are in transition from research to clinical and public health practice in the United States.	CDC	2004	0
Expert Panel on CVD Risk Reduction in Adults ;and Expert Panels on CVD Risk Factors—High Blood Pressure, High Blood Cholesterol, and Overweight and Obesity; and Work Groups on Risk Assessment, Lifestyle Interventions, and Guidelines Implementation	Committee/Meeting	This expert panel reviews and updates the scientific evidence regarding the assessment and management of CV risk factors for the Integrated Guidelines on these risks.	CDC	2007	2,727,792
FDA Endocrinologic and Metabolic Drugs Advisory Committee	Committee/Meeting	The committee's mission is to protect and promote the public health. It uses 48 committees and panels to obtain independent expert advice on scientific, technical, and policy matters, including the Endocrinologic and Metabolic Drugs Advisory Committee.	FDA	2003	0
FDA Pediatric Liver Transplant Scientific Discussion	Committee/Meeting	Committee discusses pediatric liver transplant research in the context of developing/identifying biomarkers of rejection.	FDA	2008	0
FDA Anti-Infective Drugs Advisory Committee	Committee/Meeting	The committee evaluates available data concerning the safety and effectiveness of marketed and investigational human drug products for use in the treatment of infectious diseases and disorders and makes recommendations to the Commissioner, FDA.	FDA	2007	0
Federal Adverse Event Task Force	Committee/Meeting	The FAET works to propose specific means for promoting greater harmonization among federal agency requirements for AE reporting by studying existing agency reporting, discerning how agencies collect and use data, and developing proposals for harmonization for consideration by the relevant agencies.	AHRQ/CDC/FDA/OS	2004	0
Federal Collaborative on Health Disparities Research (FCHDR)	Committee/Meeting	The Federal Collaboration on Health Disparities Research (FCHDR) aims to find new or improved solutions to eliminate health disparities through research that can influence practice and policy.	ACF/AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/SAMHSA	2006	0
Federal Dietary Reference Intakes Steering Committee	Committee/Meeting	This committee serves as an interagency forum to provide oversight on the process used to establish the Dietary Reference Intakes. These values serve as a basis for many federal nutrition programs and policies.	AHRQ/CDC/FDA/OS	2005	0
Federal Forum on Aging Related Statistics	Committee/Meeting	The Federal Interagency Forum on Aging-Related Statistics brings together Federal agencies that share a common interest in improving aging-related data. The Forum has played a key role by critically evaluating existing data resources and limitations, stimulating new database development, encouraging cooperation and data sharing among Federal agencies, and preparing collaborative statistical reports.	AoA/AHRQ/CDC/CMS/OS/SAMHSA	1986	15,000
Federal Health Architecture	Committee/Meeting	The Federal Health Architecture (FHA) charter is to bring federal agencies together to improve efficiency and effectiveness in government health IT operations. The use of health IT is an integral component in the effort to reform our national healthcare system and improve service for citizens.	OS	2005	0
Federal Immunization Safety Task Force	Committee/Meeting	The goal of this committee is to enhance federal vaccine safety infrastructure.	AHRQ/CMS/CDC/HRSA/FDA/OS	2008	0

Federal Interagency Traumatic Brain Injury Research (FITBIR) network	Committee/Meeting	The purpose of the FITBIR network is to facilitate communication, coordination, and collaboration of TBI research across agencies.	CDC/OS	2008	0
Federal Interagency Workgroup on Child Abuse and Neglect	Committee/Meeting	This forum communicates and exchanges ideas concerning child maltreatment related programs and activities; collects information about federal child maltreatment activities; and provides a basis for collective action through which funding and resources can be maximized.	ACF/AoA/CDC/IHS/SAMHSA	2002	0
Federal Interagency Working Group on Teen Dating Violence	Committee/Meeting	This working group produced a trans-NIH PA on Research on Teen Dating Violence (TDV). It meets every 6 weeks to monitor research on TDV and consider how federal agencies might contribute to fighting TDV.	ACF/CDC/HRSA/OS/SAMHSA	2006	0
Federal Investigator Registry of Biomedical Information Research Data (FIREBIRD)	Committee/Meeting	FIREBIRD automates the Form 1572 registration process, a key activity in the regulatory data submission process for clinical trial investigators.	FDA	2004	258,059
Federal Liaison Group on Asthma (FLGA)	Committee/Meeting	The FLGA is committed to achieving and maintaining effective coordination that respects the unique contributions of individual agencies, facilitates exchange of information to avoid duplication, enables identification of opportunities for collaboration, and ensures that consistent messages about asthma are developed and disseminated.	ACF/AHRQ/CDC/FDA/AHRQ/HRSA/OS	2003	0
Federal Malaria Vaccine Coordinating Committee	Committee/Meeting	The FMVCC works on the development and testing of vaccines that are likely to work in real-world settings.	CDC	1991	0
Federal Tuberculosis (TB) Task Force	Committee/Meeting	The Federal Tuberculosis (TB) Task Force is a coalition composed of the federal agencies and organizations involved in U.S. TB control efforts. Federal TB Task Force members communicate regularly to discuss TB activities and research.	AHRQ/CDC/FDA/HRSA/IHS/OS	1991	0
Federal Working Group on Bone Diseases	Committee/Meeting	An interagency committee focusing on osteoporosis, Paget's disease, and other bone disorders.	AHRQ/CDC/CMS/FDA/OS	1993	0
Federal Working Group on Dietary Supplements	Committee/Meeting	Interagency committee organized by the NIH Office of Dietary Supplements as a communication forum for those agencies with an interest in dietary supplement research	CDC/FDA	2005	0
Fistula First (relative to kidney dialysis)	Committee/Meeting	This Fistula First informational website provides information about how to live with kidney failure and how to make choices about care (i.e. what type of vascular access to use if hemodialysis is chosen as a treatment).	CMS	2005	0
Food Allergy Guideline Coordinating Committee	Committee/Meeting	The objective of these clinical practice guidelines is to provide standardized information and recommendations to healthcare providers for the diagnosis and treatment of food allergies.	AoA/CDC/CMS	2008	0
Forum on Child and Family Statistics	Committee/Meeting	This forum of Federal agencies collects, analyzes, and reports data on issues related to children and families. The Forum has partners from 22 Federal agencies as well as partners in private research organizations.	ACF/AHRQ/CDC/HRSA/SAMHSA	1994	0
Framework for Adherence Research and Translation: A Blueprint for the Next Ten Years	Committee/Meeting	Meeting called to focus on possible issues relating to translation, dissemination, education, and development of quality measures to move research findings forward into standard clinical practice.	AHRQ/OS	2007	78,000

From Hypothesis to Product: an EORTC-NCI-ASCO Diagnostics Development Tutorial	Committee/Meeting	ASCO is the world's leading professional organization representing physicians who treat people with cancer. ASCO's members set the standard for patient care worldwide and lead the way in carrying out clinical research aimed at improving the prevention, diagnosis, and treatment of cancer.	FDA	2004	0
Genomic Applications in Practice and Prevention Network (GAPPNet)	Committee/Meeting	GAPPNet aims to accelerate and streamline effective and responsible use of validated and useful genomic knowledge and applications, such as genetic tests, technologies, and family history, into clinical and public health practice.	CDC	2008	0
Global Cardiovascular Health Thought Leaders	Committee/Meeting	Meeting to shape strategies for global cardiovascular health.	CDC	2007	30,000
NSABB Global Health Security Action Group	Committee/Meeting	Committee – International Committee of G7 plus Mexico charged with fostering collaboration and cooperation among member nations in the area of emergency preparedness	CDC/FDA/OS	2001	0
<i>Glycan Array Data: What does it tell us and how do we interpret it?</i>	Committee/Meeting	The National Institute of General Medical Sciences sponsored a workshop to discuss "Glycan Array Data: What does it tell us and how do we interpret it?" on December 8, 2008. This workshop brought together researchers from academia and government to assess issues arising from the use of glycan arrays for study of viral glycan binding proteins, with a focus on the binding specificities of influenza virus hemagglutinins.	CDC	2008	18,590
Grant Writing Workshop for SPF-SIG National Grantees Meeting	Committee/Meeting	Presentation on grant writing at a SAMHSA-convened meeting	SAMHSA	2008	0
Health Literacy Workgroup	Committee/Meeting	Part of the National Eye Health Education Program	OS	2004	0
Health Resources and Services Administration Interagency Working Group on Hematopoietic Stem Cell Transplantation	Committee/Meeting	Committee meets on matters related to the activities of the C.W. Bill Young Cell Transplantation Program and the National Cord Blood Inventory (NCBI) Program.	CDC/FDA/HRSA	2006	0
Healthier Children Initiative Committee	Committee/Meeting	Working to address why so many children – in urban and rural communities – are unhealthy.	ACF/AoA/CDC/FDA/HRSA/OS/SAMHSA	2003	0
Healthy People 2010 Chapter 19 Nutrition and Overweight Work Group	Committee/Meeting	Committee works on nutrition and overweight issues related to the Healthy People Campaign.	ACF/AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/OSG	1998	0
Healthy People 2010 Partnership for Heart Disease and Stroke	Committee/Meeting	Committee works on heart disease and stroke issues of the 2010 Healthy People Campaign.	CDC/IHS/OS	2001	0
Healthy People 2010 Physical Activity and Fitness Work Group	Committee/Meeting	Committee works on physical activities and fitness issues related to the Healthy People 2010 campaign.	ACF/AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/OSG	1998	0
Healthy People 2010 Work Group - Environmental Health	Committee/Meeting	Healthy People 2010 provides a framework for prevention for the Nation. It is a statement of national health objectives designed to identify the most significant preventable threats to health and to establish national goals to reduce these threats.	ATSDR/CDC/OS	2002	0
Healthy People 2010 Work Group - Respiratory Health	Committee/Meeting	Healthy People 2010 provides a framework for prevention for the Nation. It is a statement of national health objectives designed to identify the most significant preventable threats to health and to establish national goals to reduce these threats.	ATSDR/CDC/OS	2002	0
Healthy People 2020 Working Groups	Committee/Meeting	In preparation for the next round of identifying and achieving national health objectives, the DHHS has established a number of working groups to set the framework for this decade.	ACF/AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2007	0
HIV Serosorting consultation	Committee/Meeting	NIMH staff collaborated with the CDC to review the state of the science regarding HIV serosorting as an effective strategy for curbing new infections. New research directions were identified.	CDC	2008	0

HIV/AIDS Management Team	Committee/Meeting	Coordinates HIV/AIDS research across HHS.	ACF/AHRQ/CDC/ CMS/FDA/HRSA/ IHS/OS/OSG/ SAMHSA	1982	0
HIV/AIDS Prevention and Treatment Guidelines Working Groups	Committee/Meeting	Working groups contribute to establishing and periodically updating prevention and treatment guidelines for HIV/AIDS.	CDC/FDA/HRSA	2005	0
I Can Do It – You Can Do It Initiative	Committee/Meeting	To improve the health of the six million American children who have disabilities, the committee encourages increased physical activity and healthy nutritional behaviors.	OS	2005	235,000
Information Sharing Collaborative Meeting	Committee/Meeting	Discuss mechanisms for information sharing about upcoming initiatives, demonstration projects, or surveillance updates that may affect future directions in science.	CDC	2008	15,000
Institute of Medicine’s Roundtable on Environmental Health Sciences, Research and Medicine	Committee/Meeting	Academy roundtable for discussing emerging issues in environmental health.	CDC	2000	300,000
Insulin Standardization	Committee/Meeting	Workgroup convened by the American Diabetes Association to evaluate 12 different commercial insulin methods from 9 manufacturers.	CDC	2004	0
Interagency Animal Management Committee	Committee/Meeting	Reviews experimental protocols for the use of chimpanzees in federally funded research.	CDC/FDA	1987	0
Interagency Animal Models Committees (IAMC)	Committee/Meeting	Reviews requests for use of chimpanzees in research projects funded by NIH.	CDC/FDA	1989	0
Interagency Asbestos Working Group	Committee/Meeting	Interagency committee established to coordinate federal agency activities related to research and risk assessment of asbestos.	ATSDR/CDC	2006	0
Interagency Autism Coordinating Committee	Committee/Meeting	The Interagency Autism Coordinating Committee (IACC) established in accordance with the Combating Autism Act of 2006 (P.L. 109-416).	AFC/CDC/CMS/ HRSA/SAMHSA	2001	1,028,539
Interagency Chemical Hazards Working Group	Committee/Meeting	OSTP-led working group on chemical hazards.	CDC/FDA/OS	2007	0
Interagency Committee	Committee/Meeting	Committee is a trans-NIH committee that fosters collaboration between NIH and AHRQ/CMS/FDA to fulfill their respective missions.	AHRQ/CMS/FDA	2003	0
Interagency Committee on Disability Research	Committee/Meeting	Committee coordinates activities that span the areas of assistive technology and universal design; medical rehabilitation; data and statistics; employment; and community participation.	AoA/AHRQ/CDC/IHS	1991	0
Interagency Committee on Disability Research (ICDR)/Personal Assistance Services and Caregiving Committee*	Committee/Meeting	Committee coordinated activities related to Personal Assistance Services and Caregiving.	AoA/AHRQ/CDC/ FDA/HRSA/SAMHSA	Unreported	0
Inter-Agency Committee on Drug Control (ICDC)	Committee/Meeting	This committee facilitates communication between USG agencies involved in the drug control process.	FDA/SAMHSA	1981	0
Interagency Committee on EMSC Research (ICER)	Committee/Meeting	This interagency workgroup collaborates on issues related to research on emergency medical services for children.	AHRQ/CDC/FDA	1998	0
Interagency Committee on PL-109-95 (Law regarding highly vulnerable children in the developing world)	Committee/Meeting	Multi-Agency group involved in numerous studies and activities related to all aspects of disability research.	ACF/CDC/HRSA/OS/ SAMHSA	2008	0
Interagency Coordinating Committee for Evaluation of Chemicals (ICCEC)	Committee/Meeting	Reviews and selects substances nominated for study.	ATSDR/CDC/FDA	1994	0
Interagency Coordinating Committee on Fetal Alcohol Spectrum Disorders (ICCFASD)	Committee/Meeting	NIAAA hosts and sponsors this interagency committee which meets twice each year to encourage and improve communication, cooperation, and collaboration among federal agencies with programs or a special interest in Fetal Alcohol Spectrum Disorders.	AHRQ/CDC/HRSA/ IHS/SAMHSA	1996	80,000
Interagency Coordinating Committee on Human Growth Hormone and Creutzfeldt-Jakob Disease	Committee/Meeting	This NIDDK Committee oversees numerous activities related to human growth hormone and Creutzfeldt-Jakob Disease such as information dissemination, strategic planning of research activities and monitoring research progress.	CDC/FDA	1985	0

Interagency Coordinating Committee on Prevention of Underage Drinking (ICCPUD)	Committee/Meeting	The ICCPUD agencies support a wide range of programs that, taken together, provide a comprehensive response to the challenge of preventing underage drinking.	ACF/CDC/OSG/SAMHSA	2004	0
Interagency Coordinating Committee on the Validation of Alternative Methods (ICCVAM)	Committee/Meeting	To establish criteria for validation of testing methods to reduce, refine, or replace animals in toxicity testing.	ATSDR/CDC/FDA	1994	3,805,533
Interagency Council on Biomedical Imaging in Oncology (ICBIO)	Committee/Meeting	ICBIO is a confidential informational meeting for entities, usually small companies, planning product development in cancer.	AHRQ/CMD/FDA	1999	0
Interagency Select Agent Review Group	Committee/Meeting	Specific language NIAID will use in solicitations and contracts when contract performance involves possession, use, or transfer of select pathogenic, biological agents or toxins.	CDCFDA	2005	0
Interagency Subcommittee on Disability Statistics (ISDS)	Committee/Meeting	Subcommittee of the Interagency Committee on Disability Research, which deals specifically with disability statistics.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	1996	0
Interagency Task Force on Antimicrobial Resistance	Committee/Meeting	Task Force reflects a broad-based consensus of federal agencies on actions needed to address antimicrobial resistance (AR).	AHRQ/CDC/CMS/FDA/HRSA	1999	0
Interagency Vaccine Group	Committee/Meeting	Committee provides leadership and coordination among Federal agencies, as they work together to carry out the goals of the National Vaccine Plan.	CMS/CDC/HRSA/FDA	2006	0
Interagency Working Group in Preparation for the Annual U.N. Commission on Narcotic Drugs Meeting	Committee/Meeting	This committee, lead by the Department of State, is responsible for preparing the U.S. Delegation to the annual meeting of the U.N. Commission on Narcotic Drugs. International drug scheduling issues are a major focus.	FDA/OS/SAMHSA	Unreported	0
Interagency Working Group on Hematopoietic Stem Cells	Committee/Meeting	A working group with representatives from relevant HHS agencies with an interest in hematopoietic stem cell research. Members keep one another apprised of new developments and programs to maximize collaboration and synergy.	CDC/CMS/FDA/HRSA	Unreported	0
International Tuberculosis (TB) Working Group	Committee/Meeting	Committee works to create a foundation of knowledge for the discovery of new diagnostics, drugs and vaccines to help fight TB worldwide.	CDC/FDA	2003	0
Intrdepartmental Council for Native American Affairs (ICNAA)	Committee/Meeting	To support activities of the ICNAA, including tribal consultation sessions, and development of the annual tribal consultation report.	OS	2004	11,270
Intragovernmental Select Agent and Toxin Technical Advisory Committee	Committee/Meeting	Committee works with the National Select Agents Registry Program on all activities relating to the possession of biological agents and toxins that have the potential to pose a severe threat to public, animal or plant health, or to animal or plant products.	FDA	2005	0
IT Investment Review Board	Committee/Meeting	Collaborate on information technology activities.	ACF/AHRQ/CDC/CMS/FDA/HRSA/OS/SAMHSA	Unreported	0
Kidney, Urologic, and Hematologic Diseases Interagency Coordinating Committee	Committee/Meeting	Section 429 of Public Law 99-158 created the Kidney, Urologic, and Hematologic Diseases Interagency Coordinating Committee (KUHICC) in 1987. The committee met for the first time in 1988, and continues to meet as subcommittees for kidney, urology, and hematology about four times a year.	AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/AHRQ	1987	0
Logical Observation Identifiers Names and Codes (LOINC)	Committee/Meeting	LOINC® facilitates the exchange and pooling of clinical results for clinical care, outcomes management, and research by providing a set of universal codes and names to identify laboratory and other clinical observations.	AHRQ/CDC/CMS/HRSA/OS	2003	683,409
Low SES Smoking Cessation Program	Committee/Meeting	A DHHS wide program to develop programs to educate women of low socio-economic status about the impact of smoking on their health and their family's health.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2008	0

Lyme Disease Coordinating Committee (LDCC)	Committee/Meeting	The LDCC meets annually to review the results of current studies and recent advances in research on Lyme disease.	CDC/FDA	2007	0
Microbial Project Interagency Working Group	Committee/Meeting	The MPIWG serves as a forum to foster coordination and collaboration among federal agencies while working closely with the broader scientific community in the U.S. and internationally. These coordinated activities include working toward maximizing the opportunities offered by genome-enabled microbial science to benefit science and society.	CDC/FDA	2006	0
Microbicides Coordinating Committee	Committee/Meeting	The Committee was established to share ideas, consolidate resources, and promote collaboration among U.S. government agencies involved in microbicides research.	CDC/FDA	2001	0
Multiagency Tissue Engineering Science (MATES)	Committee/Meeting	This working group is co- chaired by the National Science Foundation and the NIH (NIBIB) and reports to the Committee on Science through the Subcommittee on Biotechnology. A recent solicitation resulted in the funding of several research projects in 2008 and 2009.	CMS/FDA	2000	1,610,918
Muscular Dystrophy Coordinating Committee (MDCC)	Committee/Meeting	This committee works to coordinate activities relevant to the various forms of muscular dystrophy.	ACF/CDC/FDA/HRSA	2001	60,000
Nanotechnology Task Force: National Nanotechnology Initiative (NNI) call for trans-agency Signature Initiatives	Committee/Meeting	In response to NNI's call for Signature Initiatives, the NIH Nanotechnology Task Force (NIDCR and NIBIB representatives) together with FDA and other Federal Agencies (NIST, NSF, and DoD) have generated a draft of the Initiative entitled "Nano-Regenerative Medicine". The overarching goals of this Initiative will be to develop robust and efficient platforms for standardization, fabrication, GMP manufacturing, and regulatory approval of nanotechnology-based products that will lead to new paradigms in low cost therapies targeting regeneration of a range of tissues in the human body affected by disease and injury. On July 24, 2009, the draft of the Initiative was submitted for review to the Office of Science and Technology Policy through NNI.	FDA	2001	0
National Asthma Education and Prevention (NAEPP) Program	Committee/Meeting	The NAEPP works with intermediaries including major medical associations, voluntary health organizations, and community programs to educate patients, health professionals, and the public. The ultimate goal of the NAEPP is to enhance the quality of life for patients with asthma and decrease asthma-related morbidity and mortality.	AHRQ/CDC/FDA	1989	0
National Asthma Education and Prevention Program Federal Liaison Group on Asthma	Committee/Meeting	The National Asthma Education and Prevention Program (NAEPP) Coordinating Committee (CC) works to identify all federal programs that carry out asthma-related activities, develop a federal plan for responding to asthma, and submit recommendations to the Congress on ways to strengthen and improve coordination of asthma-related activities of the federal government.	AHRQ/CDC/CMS/FDA/HRSA/OS/OSG	1998	0
National Biodefense Science Board	Committee/Meeting	The NBSB, established under the authority of the Pandemic and All-Hazards Preparedness Act of 2006, provides expert advice and guidance to the Secretary of HHS on scientific, technical, and other matters of special interest to HHS regarding current and future chemical, biological, nuclear, and radiological events, whether naturally occurring, accidental, or deliberate.	CDC/FDA/OS	2007	0
National Biodefense Science Board, Disaster Mental Health Subcommittee	Committee/Meeting	The subcommittee develops recommendations for protecting, preserving, and restoring individual and community mental health in catastrophic health event settings; core public health and medical training and education curricula; and a flow of accurate, credible, and relevant information between Federal partners and individuals, families, communities, and institutions.	ACF/CDC/HRSA/IHS/OS/SAMHSA	2008	0

National Children's Study Interagency Coordinating Committee	Committee/Meeting	The Interagency Coordinating Committee oversees broad study issues and ensures interagency collaboration.	CDC	2000	0
National Collaborative on Childhood Obesity Research (NCCOR)	Committee/Meeting	The National Collaborative on Childhood Obesity Research (NCCOR) is designed to accelerate progress on reversing the epidemic of overweight and obesity among U.S. youth.	CDC	2008	0
National Committee on Vital and Health Statistics	Committee/Meeting	The National Committee on Vital and Health Statistics was established by Congress to serve as an advisory body to the Department of Health and Human Services on health data, statistics and national health information policy. It fulfills important review and advisory functions relative to health data and statistical problems of national and international interest, stimulates or conducts studies of such problems and makes proposals for improvement of the Nation's health statistics and information systems.	ACF/AoA/AHRQ/CDC/FDA/HRSA/IHS/SAMHSA	2008	0
National Emphysema Treatment Trial*	Committee/Meeting	The committee overseeing NETT, a landmark randomized clinical study carried out with CMS to evaluate lung volume reduction surgery, continues to meet to disseminate study results.	AHRQ/CMS	1996	0
National Health and Nutrition Survey Collaboration Interest Group (NHANES-IG)	Committee/Meeting	The NHANES-IG program studies are designed to assess the health and nutritional status of adults and children in the United States.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2003	15,000
National Health Security Strategy Workgroup	Committee/Meeting	The Pandemic and All-Hazards Preparedness Act requires the Secretary of HHS to develop a National Health Security Strategy to address health security and all-hazards preparedness and response.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2008	0
National Institute for Occupational Safety and Health	Committee/Meeting	The Workgroup analyzes safety issues regarding investigational drug development work processes.	CDC	2000	0
National Institute on Disability and Rehabilitation Research (NIDRR), Department of Education -- Subcommittee on Medical Rehabilitation Research	Committee/Meeting	The National Institute on Disability and Rehabilitation Research (NIDRR) provides leadership and support for a comprehensive program of research related to the rehabilitation of individuals with disabilities.	AoA/AHRQ/CDC/FDA/HRSA/SAMHSA	Unreported	0
National Occupational Research Agenda (NORA)/International Agency for Research on Cancer (IARC) Planning Committee	Committee/Meeting	Identification of research needs and gaps to resolve the carcinogenicity of high priority probable and possible carcinogens.	CDC	2006	0
National Partnership for Action to End Health Disparities	Committee/Meeting	The Partnership focuses on health status and health outcomes among racial and ethnic minority populations.	AoA/CDC/FDA/HRSA/IHS/OS/SAMHSA	2007	0
National Resource Council, Standing Committee for Emerging Science in Environmental Health	Committee/Meeting	The Committee facilitates communication among government, industry, environmental groups, and the academic community about scientific advances in the identification, quantification, and control of environmental impacts on human health.	CDC/FDA	2003	500,000
National Science Advisory Board for Biosecurity (NSABB)	Committee/Meeting	NSABB advises the USG on oversight of dual use life science research. It focuses on the development of policies addressing life sciences research that yield information or technologies with the potential to be misused to threaten public health or other aspects of national security.	CDC/FDA/OS	2004	629,985
National Science and Technology Council, Subcommittee on Toxics and Risk Committee	Committee/Meeting	This Cabinet-level Council is the principal means within the executive branch to coordinate science and technology policy across the diverse entities that make up the Federal research and development enterprise.	CDC	2000	0
National Toxicology Program (NTP) Center for the Evaluation of Risks to Human Reproduction(CERHR) Core Committee	Committee/Meeting	NTP serves as an environmental health resource to the public and regulatory and health agencies. CERHR publishes monographs that assess the evidence that environmental chemicals, or other substances cause adverse effects on reproduction and development and whether these substances are hazardous for humans.	CDC/FDA	1998	0

National Toxicology Program (NTP) Interagency Committee for Chemical Evaluation and Coordination (ICCEC)	Committee/Meeting	The ICCEC evaluates groups of new study nominations to make recommendations with respect to both specific types of toxicological studies and testing priorities.	ATSDR/CDC/FDA	1978	0
National Toxicology Program (NTP) RoC Interagency Scientific Review Group (ISRG)	Committee/Meeting	The RoC ISRG is an interagency government review group charged with making a recommendation on listing status for candidate substances in the Report on Carcinogens.	ATSDR/CDC/FDA	1990	0
National Toxicology Program Executive Committee	Committee/Meeting	Policy oversight to NTP Director	ATSDR/CDC/FDA	1994	0
National Vaccine Advisory Committee	Committee/Meeting	The National Vaccine Program Office is responsible for coordinating and ensuring collaboration among the many Federal agencies involved in vaccine and immunization activities.	CDC/CMS/FDA/HRSA/OS	2003	0
Nationwide Health Information Network (NHIN)	Committee/Meeting	Federal Workgroup on Data Sharing and Reciprocal Support Agreement.	OS	2007	0
Native American Heritage Day Scientific and Cultural Symposium	Committee/Meeting	FIC, in collaboration with IHS hosted an annual symposium on November 2007. The symposium included scientific presentations on biomedical and behavioral research activities relevant to American Indians and Alaska Natives.	ACF	2008	0
Network Executive Committee for Centers of Excellence for Influenza Research and Surveillance	Committee/Meeting	The Network Executive Committee for the Centers of Excellence for Influenza Research and Surveillance is responsible for defining areas of collaboration among the Centers and advising the Centers on how they can be used as a resource in the event of the emergence and rapid spread of an influenza pandemic in humans.	CDC/OS	2008	0
Nutrition Coordinating Committee (NCC)	Committee/Meeting	The committee coordinates Nutritional Sciences-related research and research training across the National Institutes of Health (NIH) and among Federal Agencies by providing mechanisms to communicate research, research training, policy, and education initiatives.	AHRQ/CDC/FDA/HRSA/IHS/OS	1975	0
Nutrition Policy Board	Committee/Meeting	This Board coordinates DHHS nutrition policy development and program implementation and is the principal point of contact with USDA for nutrition policy.	ACF/AoA/CDC/FDA/HRSA/IHS/OS/SAMHSA	1986	0
Nutrition.gov working group	Committee/Meeting	Nutrition.gov provides easy access to the best food and nutrition information from across the federal government. It serves as a gateway to reliable information on nutrition, healthy eating, physical activity, and food safety for consumers.	CDC/FDA/OS	2004	0
Office of AIDS Research (OAR) Planning Process to Develop the FY 2010 Trans-NIH Plan for HIV-Related Research	Committee/Meeting	Establishes scientific priorities for all NIH AIDS research	CDC/FDA/OS	2007	0
Pandemic and Seasonal Influenza Risk Management Group	Committee/Meeting	This group reviews issues associated with pandemic influenza preparedness, including vaccines, drugs, animal models, respirators, H5 stockpile, strain selection, and non-pharmaceutical interventions.	OS	2005	0
Panel Discussion on Prevention of Fetal Alcohol Syndrome, Quarterly Meeting of The President's Committee for People with Intellectual Disabilities (PCPID)	Committee/Meeting	Organized and participated in presentations and discussions to inform the PCPID about Fetal Alcohol Syndrome and Fetal Alcohol Spectrum Disorders.	ACF	2008	0
Parkinson's Disease Coordinating Committee	Committee/Meeting	The Committee promotes cooperation and collaboration among the centers, translation of basic science findings into clinical applications, and training of future Parkinson's disease investigators.	AoA/CDC	Unreported	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Biological Working Group	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0

PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Smallpox Integrated Product Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) rPA Product Coordination Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Anthrax Integrated Program Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Anthrax Therapeutic Product Coordination Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Botulism Integrated Product Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Broad Spectrum Antimicrobials Integrated Product Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Chemical Integrated Product Development Team (IPT)	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Chemical Integrated Product Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Deployment and Use Integrated Product Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Product Development Tools Working Group	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0

PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Product Development Tools Working Group	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Viral Hemorrhagic Fevers Integrated Product Team	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHEMCE (Public Health Emergency Medical Countermeasures Enterprise) Chemical Requirements Working Group	Committee/Meeting	The Public Health Emergency Medical Countermeasures Enterprise (PHEMCE) is a coordinated interagency effort by the Office of the Assistant Secretary for Preparedness and Response (ASPR) and includes three primary HHS internal agencies with other agencies. Each Countermeasure is related to a separate PHEMCE issue.	CDC/FDA/OS	2007	0
PHS Interagency Working Group on Blood Safety and Availability	Committee/Meeting	Explores federal and private roles necessary to develop and support a national biovigilance system for blood safety/ availability.	FDA	2006	0
Planning Committee and speakers at May 9, 2008 Workshop: “Accelerating the Dissemination and Translation of Clinical Research into Practice”*	Committee/Meeting	Planning committee regarding accelerating the translation of clinical research into practice.	AHRQ/CDC/HRSA /IHS	2008	0
Planning Committee for the Trauma Spectrum Disorders Meeting series	Committee/Meeting	The meeting reviewed existing science on trauma spectrum disorders related to military deployment, such as PTSD and traumatic brain injury (TBI).	AHRQ/CDC/ SAMHSA	2008	0
Policy Coordination for Adverse Event Reporting in Clinical Research	Committee/Meeting	The group proposes specific means for promoting harmonized and streamlined federal requirements for reporting, analyzing, and communicating adverse events in clinical research.	AHRQ/FDA	Unreported	0
President’s Emergency Plan for AIDS Relief (PEPFAR) Technical Working Group (TWG) on Orphans and Vulnerable Children (OVC)	Committee/Meeting	Team evaluated an prepared report on the President's Emergency Plan for AIDS Relief for orphans and other vulnerable children.	CDC/FDA/HRSA/ OS/SAMHSA	2006	0
Preventing Alcohol, Tobacco, and Other Substance-exposed Pregnancies: A Community Affair*	Committee/Meeting	A symposium to explore best approaches for disseminating information about the potential harm caused by risky drinking and other substance use during the child-bearing years and pregnancy.	CDC/HRSA/IHS/ SAMHSA	2008	60,000
Prevention Research Coordinating Committee (PRRC)	Committee/Meeting	This committee coordinates NIH prevention research in an array of medical fields.	AHRQ/ATSDR/CDC	1997	0
Program for the Assessment of Clinical Cancer Tests (PACCT)	Committee/Meeting	The PACCT Program was designed to ensure that the development of the next generation of laboratory tests is efficient and effective. New components of the program are developed as needed.	FDA	2000	0
Program of Research to Integrate Substance Abuse Issues into Mainstream Healthcare (PRISM)	Committee/Meeting	The overall goal of <i>PRISM</i> is to integrate knowledge and management skills about substance use into mainstream health care.	SAMHSA	2007	0
Public Health Information Network (PHIN)	Committee/Meeting	The Public Health Information Network (PHIN) is a national initiative to improve the capacity of public health to use and exchange information electronically by promoting the use of standards and defining functional and technical requirements.	CDC	2008	0
Quality Improvement Organizations 9th Scope of Work	Committee/Meeting	The mission of the QIO Program is to improve the effectiveness, efficiency, economy, and quality of services delivered to Medicare beneficiaries.	ACF	2007	0
Radiation Bioterrorism Research and Training (RABRAT)	Committee/Meeting	Multi-agency group that meets to discuss issues related to radiation and bioterrorism. HHS collaboration is with the HHS Office of Public Health Emergency Preparedness	OS	Unreported	0
Recombinant DNA Advisory Committee	Committee/Meeting	The Recombinant DNA Program promotes scientific advancement and safety in the conduct of basic and clinical recombinant DNA research	CDC/FDA/OS	1975	783,914
Scientific Advisory Committee on Alternative Toxicological Methods (SACTM)	Committee/Meeting	To establish criteria for validation of testing methods to reduce, refine, or replace animals in toxicity testing.	ATSDR/CDC/FDA	1994	0

Scientific Registry of Transplant Recipients, Technical Advisory Committee	Committee/Meeting	The Scientific Registry of Transplant Recipients is a national database of statistics related to solid organ transplantation - kidney, liver, pancreas, intestine, heart, and lung. The registry covers the full range of transplant activity, from organ donation and waiting list candidates to transplant recipients and survival statistics. Its purpose is to support the development of sound policy, to encourage research on issues of importance to the transplant community, and to facilitate responsible analysis of transplant programs and organ procurement organizations (OPPOs).	HRSA	2006	0
Secretary's Committee on Blood Safety and Availability	Committee/Meeting	Participates in meetings and workgroups to assure the HHS commitment to blood transfusion safety and availability of blood types during normal operations and contingencies.	CDC/CMS/FDA/HRSA/OS	2005	0
Secretary's Federal Working Group on Physical Activity Guidelines for Americans	Committee/Meeting	First-ever Physical Activity Guidelines for Americans describing the types and amounts of physical activity that offer them substantial health benefits.	CDC/FDA/OS	2006	0
Secretary's Advisory Committee on Genetics Health and Society (SACGHS)	Committee/Meeting	The SACGHS advises the Secretary of Health and Human Services on the broad range of clinical, public health, ethical, economic, legal, and societal issues associated with the development, use, and potential misuse of genetic and genomic technologies.	ACF/AHRQ/CDC/CMS/FDA/HRSA/OS	2002	569,919
Sentinel Initiative Federal Partners Working Group	Committee/Meeting	A key activity of the Sentinel Initiative is to provide for the development of electronic interfaces that can send queries to existing data sources consistent with appropriate privacy guidelines and applicable laws.	FDA	2008	0
Sleep Disorders Research Advisory Board (SDRAB)	Committee/Meeting	Inter-agency coordination and public advisory group to the Director of the National Center on Sleep Disorders Research, and the Director, NHLBI.	CDC/OSG	1993	0
State of the Science Conference on Colorectal Cancer Screening	Committee/Meeting	This State-of-the-Science Conference focused on areas where colorectal cancer screening and surveillance can be most appropriately implemented, monitored, and evaluated for average-risk populations in the United States by healthcare providers, patients, policy makers, and the general public.	CDC/CMS/HRSA/IHS/OS/SAMHSA	2008	0
Subcommittee on Nanoscale Science, Engineering, and Technology	Committee/Meeting	This interagency subcommittee is responsible for coordination of the National Nanotechnology Initiative. It is a subcommittee of the National Science and Technology Council's Committee on Technology.	CDC/FDA	2001	0
Superfund Basic Research Program /NIOSH, interagency regarding funds for hazardous substance training.	Committee/Meeting	Committee works to support hazardous substance training activities in university programs.	CDC	1991	1,456,000
Surgeon General's Conference on the Prevention of Preterm Birth	Committee/Meeting	Preterm birth is one of the most complicated and difficult research and public health issues in obstetrics and pediatrics. The purpose of this conference was to increase awareness of preterm birth in the United States, review key findings and reports by experts in the field and establish an agenda for activities in both the public and private sectors to mitigate this public health problem.	OS/OSG	2008	0
Surgeon General's Workshop on Deep Vein Thrombosis	Committee/Meeting	Development of workshop proceedings and a Surgeon General's Call to Action on DVT	OSG	2005	45,000
Taskforce for Clinical Trial Related Expenses	Committee/Meeting	Ad hoc group to address issues around CMS reimbursement for specific clinical trial related expenses.	CMS	Unreported	0
TB Trials Consortium Protocol Group	Committee/Meeting	TB Epidemiologic Studies Consortium Strategic Planning Working Group	CDC	2006	0

Teen Dating Violence Federal Workgroup	Committee/Meeting	The workgroup coordinates efforts to support healthy relationships and reduce dating violence among teens. It has representatives from 16 agencies within the DOJ, DOE, HHS and DOD.	ACF/AHRQ/CDC/HRSA/	2006	0
The Community Guide: What works to promote health.	Committee/Meeting	The Community Guide is a free resource to help people choose the most effective programs and policies to improve health and prevent disease in their communities. This activity included a review of various interventions to reduce alcohol-related problems.	CDC/SAMHSA	2004	0
The Federal Chief Information Officers (CIO) Council	Committee/Meeting	The Council is a Collaboration on Capital Planning and Investment Control (CPIC).	ACF/AHRQ/CDC/CMS/FDA/HRSA/OS/SAMHSA	Unreported	0
The Federal TB Task Force	Committee/Meeting	Forum for Federal agencies that deal with tuberculosis control and research. Member agencies work together to improve control of tuberculosis - includes federally funded TB research.	CDC/CMS/FDA/HRSA/IHS/OS/SAMHSA	1996	0
The Foundation for the NIH Biomarkers Consortium	Committee/Meeting	The Consortium develops, validates, and qualifies biological markers (biomarkers) to speed the development of medicines and therapies for detection, prevention, diagnosis, and treatment of disease and improve patient care.	CMS/FDA	2006	0
The Joint Working Group on Telehealth	Committee/Meeting	Group coordinates members' telehealth activities, and ensure that there are no overlaps in Federal funding. Telehealth members provide and share information and develop specific actions that reduce barriers to the effective use of telehealth technologies.	AHRQ/CMS/FDA/HRSA/IHS/OS/SAMHSA	2006	0
The Utilization of DHHS Program Evaluations: A Preliminary Examination	Committee/Meeting	Study of recent HHS program evaluations commissioned by the Office of the Assistant Secretary for Planning and Evaluation (ASPE), to examine how HHS program evaluations have been used to support or modify program policy, design, or operations; to identify steps that may be taken by the Department to overcome barriers to the effective utilization and dissemination of findings; and to suggest additional in-depth research that would expand HHS's understanding of the utilization and dissemination of its program evaluation findings.	ACF/AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS SAMHSA	2007	0
Tobacco and Young, Low-SES Women: Federal collaboration to Make a Difference	Committee/Meeting	This is a Federal Inter-agency working group to identify gaps in the current portfolio of smoking cessation programs for women. An initiative to address young, low-SES smoking women is being planned.	AHRQ/CDC/HRSA/IHS/OS	2007	0
Transagency Complementary & Alternative Medicine Coordinating Committee (TCAMCC)	Committee/Meeting	The TCAMCC was established in 1999 by the NCCAM Director to foster the Center's collaboration across the HHS and other Federal agencies.	CDC/FDA/HRSA/IHS/SAMHSA	1999	0
Tri-Agency Superfund Applied Research Committee	Committee/Meeting	The Committee works to carry out the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. This Act is also known as CERCLA, or "Superfund" legislation.	ATSDR	1991	0
U.S. Centers for Disease Control & Prevention: Advisory Council for Injury Prevention and Control	Committee/Meeting	The Council works to help every American live his or her life to its fullest potential by preventing injuries and violence, and by reducing their consequences.	CDC	2005	0
U.S. Partnership Implementing Tuberculosis (TB) Elimination Research	Committee/Meeting	Partnership continues efforts to stop TB by enhancing cooperation with global partners and fostering collaboration among basic, applied and clinical researchers across multiple disciplines.	CDC	2006	0
U.S.-Japan Cooperative Medical Science Program	Committee/Meeting	This is a bilateral program with Japan. Various HHS agencies were invited to participate in various events (e.g. conferences).	CDC/FDA/OS	1965	0

US Government Interagency Working Group on Nanotechnology Environmental and Health Implications (NEHI), of the Nanoscale Science, Engineering, and Technology Subcommittee of the NSTC	Committee/Meeting	Committee provides channels for the exchange of information and the formulation of research strategies that accelerate progress towards understanding the risks and benefits of nanotechnology and that lead to practices that protect human health and safety as well as the environment.	CDC/FDA	2006	0
Violence Against Women Steering Committee	Committee/Meeting	Committee works to coordinate the response of HHS agencies and offices on issues related to family and intimate partner violence.	CDC/OS/OSG	1995	0
Vitamin D Federal Working Group	Committee/Meeting	The Group endeavors to coordinate vitamin D research efforts across agencies.	OS/FDA/CDC/AHRQ	2007	0
We Can! (Ways to Enhance Children's Activity and Nutrition)	Committee/Meeting	We Can! is a national movement designed to give parents, caregivers, and entire communities a way to help children 8 to 13 years old stay at a healthy weight.	CDC/HRSA/OS	2003	1,042,977
Web Council	Committee/Meeting	The HHS Web Council determines Web standards.	AHRQ/CDC/CMS/ FDA/HRSA/OS/ SAMHSA	Unreported	0
Western Regional Meeting on Connecting Science and Service	Committee/Meeting	Collaborative meeting between Federal and State agencies, researchers, educators, consumers, and service providers to identify priorities for connecting science and service nationally as well as those unique to individual States in the Western Region.	SAMHSA	2005	0
Women's Health and the Environment Interagency Committee	Committee/Meeting	Environmental factors may contribute to a variety of diseases in women, including breast and ovarian cancers, osteoporosis, endometriosis, uterine fibroids and autoimmune diseases. The Committee coordinates the many Federal agencies that are addressing these environmental and often preventable threats to women's health.	ATSDR/FDA/HRSA/ IHS/OS	1998	0
Agency Integration Project	Database	Ensuring that the system of organ transplantation is grounded in the best available medical science.	AHRQ/CDC/FDA/ SAMHSA	2008	0
Cardiovascular Health Study	Database	Collects participant data to allow investigations of utilization and costs of medical services within the Medicare program.	CMS	1998	0
ClinicalTrials.gov*	Database	ClinicalTrials.gov is a registry of federally and privately supported clinical trials conducted in the United States and around the world. ClinicalTrials.gov provides information about a trial's purpose, who may participate, locations, and phone numbers for more details. This information should be used in conjunction with advice from health care professionals.	AHRQ/FDA	2000	4,264,000
Collaboration between the CTSA (Clinical and Translational Science Awards) Community Engagement Steering Committee in Developing Educational Competencies, and the Community and Academic Practice Partnership workgroup	Database	CTSA institutions share a common vision to improve human health by transforming the research and training environment to enhance the efficiency and quality of clinical and translational research.	AHRQ/CDC/HRSA	2008	0
Collaboration to revisit and develop new weights for the National Long Term Care Survey	Database	A longitudinal survey designed to study changes in the health and functional status of older Americans (aged 65+). It also tracks health expenditures, Medicare service use, and the availability of personal, family, and community resources for caregiving.	OS	2007	0
Enhancements to the U.S. Life Table Program	Database	NIA is supporting research and analyses by CDC/NCHS to develop national life tables based on educational attainment and nativity.	CDC	2007	110,000
Imaging Database Resource Initiative (IDRI)*	Database	Expedites the launch of new imaging products. Provides advice on the spectrum of scientific, regulatory, and reimbursement issues related to developing an imaging device or technology.	FDA	2004	0

JANUS	Database	The Janus study data repository is being developed by FDA and the National Cancer Institute (NCI) through an Interagency Oncology Task Force (IOTF) to enable the two organizations to share knowledge and resources to facilitate the development of new cancer drugs and speed their delivery to patients.	FDA	2005	782,672
Lung Image Database Consortium (LIDC)*	Database	Public web accessible lung CT images designed to evaluate software methods for detection and classification of cancer.	FDA	2000	0
mAdb: microArray Database for FDA, CBER scientists and collaborators	Database	NIH provides database management, data analysis, and bioinformatics for gene expression microarrays from FDA's Center for Biologics Evaluation and Research scientists and collaborators.	FDA	1999	0
Management of Stem Cell Therapeutics Outcomes Database*	Database	Management of Stem Cell Therapeutics Outcomes Database, part of the National C.W. Bill Young Cell Transplantation Program & National Cord Blood Inventory formed by the Stem Cell Therapeutics and Research Act of 2005 – Public Law 08-129, 2/20/2005).	HRSA	2006	0
Mapping of the SNOMED CT and ICD	Database	The integration of clinical terminology - the System Nomenclature of Medicine - Clinical Terms (SNOMED CT)- and International Classification of Diseases (ICD) in electronic health records is being designed to support semi-automated administrative and reimbursement reporting.	AHRQ/CDC/OS	2004	0
Medical Dictionary for Regulatory Activities (MedDRA)	Database	MedDRA is an international medical terminology with an emphasis on use for data entry, retrieval, analysis, and display. It applies to all phases of drug development, excluding animal toxicology, and to the health effects and malfunction of devices.	AHRQ	2004	0
National Food and Nutrient Analysis Program (NFNAP)	Database	Program provides basic information about the nutrient content of highly consumed foods and dietary supplements in the United States. Nearly 850 food items have been sampled and analyzed in the last 7 years.	CDC/FDA	Unreported	0
National Health and Nutrition Examination Survey (NHANES) 2007-2008	Database	http://ods.od.nih.gov/	CDC	2001	1,218,000
National Longitudinal Mortality Study	Database	The database was developed to study the effects of demographic and socio-economic characteristics related to differences in U.S. mortality rates.	CDC	1996	4,000,000
Reference Image Database to Evaluate Response to Therapy (RIDER)	Database	Public Web accessible resource of serial CT lung images acquired during the course of therapy, to evaluate change analysis software tools.	FDA	2004	0
Resources Directory and Database	Database	Directory lists selected national organizations that provide information on communication disorders.	AHRQ/CDC/CMS	2005	5,000
State Cancer Profiles	Database	Statistics for prioritizing cancer control efforts in the nation, states, and counties.	CDC	2004	120,000
Web-based Medical Information Retrieval System (WebMIRS)	Database	The project involves preserving and providing public access to image and text data from the NHANES II and III surveys conducted by CDC/NCHS.	CDC	1990	0
Alaska Native Tumor Registry	Disease Registry	The Alaska Native Tumor Registry Data is available from all cases diagnosed since 1992.	CDC/IHS	1999	417,361
Creutzfeldt-Jakob Disease Surveillance in Recipients of Human Growth Hormone distributed through the National Hormone and Pituitary Program (NHPP)	Disease Registry	Site provides information for patients treated before 1977 with pituitary human growth hormone that may have been contaminated with Creutzfeldt-Jakob disease tissue.	CDC/FDA	1985	191,030
INTERMACS: Interagency Registry for Mechanically Assisted Circulatory Support	Disease Registry	INTERMACS is a national registry for patients who are receiving mechanical circulatory support device therapy to treat advanced heart failure.	CMS/FDA	2005	1,322,057

Northwest Portland Tribal Registry Project	Disease Registry	The Registry Project works with state health organizations to correct racial misclassification, thereby increasing the quality of disease surveillance data for American Indians and Alaska Natives (AI/AN) in Idaho, Oregon and Washington.	IHS	1999	0
SEER Program*	Disease Registry	The SEER Program is the premier source for cancer statistics in the United States.	CDC	1973	35,175,304
SEARCH for Diabetes in Youth - Patient and Provider/Researcher Information	Disease Registry	The SEARCH study will provide valuable information to researchers and health care providers in an attempt to find ways to treat and increase knowledge about diabetes in children and youth.	CDC	2000	2,188,843
SEARCH for Diabetes in Youth - Public Provider Index	Disease Registry	The SEARCH study will provide valuable information to researchers and health care providers in an attempt to find ways to treat and increase knowledge about diabetes in children and youth.	CDC	2001	300,000
The United States Renal Data System (USRDS)	Disease Registry	This national data system collects, analyzes, and distributes information about end-stage renal disease (ESRD) in the United States.	CMS	1998	1,691,204
Audiometric Support for the National Health and Nutrition Examination Survey (NHANES) and the Age, Gene/ Environment Susceptibility Study (AGES).	Health Survey	Hearing Loss Research at NIOSH: Review of research programs of the National Institute for Occupational Safety and Health	CDC	1998	77,118
Chronic Kidney Disease Surveillance	Health Survey	Descriptive information unavailable at time of report filing.	CDC	2006	0
Family Health History	Health Survey	Family health history is a written or graphic record of the diseases and health conditions present in your family. This collaborative effort with the Surgeon General provides a useful tool for understanding health risks and preventing disease in individuals and their close relatives.	OSG	2008	50,000
Health and Retirement Study (HRS)	Health Survey	The HRS survey provides information on America's older adults, including this growing population's physical and mental health, insurance coverage, financial situations, family support systems, work status, and retirement situation. The study surveys more than 22,000 Americans over the age of 50 every two years.	CMS	1992	0
Health Information Survey	Health Survey	Coordinated NIH responses to the Health Information Survey.	OS	2007	0
Heart Disease and Stroke and Respiratory Disease	Health Survey	Collaboration provides on information on heart disease, based in part on the 2003 National Health Interview Survey (NHIS).	CDC	2001	172,500
National Health and Nutrition Exam Survey	Health Survey	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	1999	20,000
National Health and Nutrition Examination Survey (NHANES) – Hearing Component	Health Survey	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	1998	235,694
National Health and Nutrition Examination Survey (NHANES) - Oral glucose tolerance, insulin and glycohemoglobin testing	Health Survey	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	1976	396,533
National Health and Nutrition Examination Survey, Vision component (NHANES)	Health Survey	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	1997	366,781

National Health Interview Survey (NHIS)	Health Survey	The National Health Interview Survey (NHIS) has monitored the health of the nation since 1957. NHIS data on a broad range of health topics are collected through personal household interviews. For over 50 years, the U.S. Census Bureau has been the data collection agent for the National Health Interview Survey. Survey results have been instrumental in providing data to track health status, health care access, and progress toward achieving national health care objectives.	CDC	2001	1,050,000
National Health Interview Survey (NHIS) – Dizziness/Balance and Falls Supplement	Health Survey	The National Health Interview Survey (NHIS) has monitored the health of the nation since 1957. NHIS data on a broad range of health topics are collected through personal household interviews. For over 50 years, the U.S. Census Bureau has been the data collection agent for the National Health Interview Survey. Survey results have been instrumental in providing data to track health status, health care access, and progress toward achieving national health care objectives.	CDC	2007	1,022,500
National Health Interview Survey (NHIS) – Hearing Supplement	Health Survey	The National Health Interview Survey (NHIS) has monitored the health of the nation since 1957. NHIS data on a broad range of health topics are collected through personal household interviews. For over 50 years, the U.S. Census Bureau has been the data collection agent for the National Health Interview Survey. Survey results have been instrumental in providing data to track health status, health care access, and progress toward achieving national health care objectives.	CDC	2006	298,000
National Health Interview Survey (NHIS) – Stroke Supplement	Health Survey	The National Health Interview Survey (NHIS) has monitored the health of the nation since 1957. NHIS data on a broad range of health topics are collected through personal household interviews. For over 50 years, the U.S. Census Bureau has been the data collection agent for the National Health Interview Survey. Survey results have been instrumental in providing data to track health status, health care access, and progress toward achieving national health care objectives.	CDC	2008	425,000
Trends in Health and Aging	Health Survey	This was a multicohort study of persons 70 years of age and over designed primarily to measure changes in the health, functional status, living arrangements, and health services utilization of two cohorts of Americans as they move into and through the oldest ages.	CDC	1994	89,000
AIDSinfo/InfoSIDA	Information Clearinghouse	Spanish Language version of information on HIV/AIDS Treatment, Prevention, and Research.	CDC/FDA/HRSA	Unreported	1,700,000
Development and Update of Diabetes Fact Sheet	Information Clearinghouse	The National Diabetes Information Clearinghouse posts these A-Z fact sheets on diabetes related issues.	AHRQ/CDC/IHS	1990	0
Grants Management Support Services for HHS Office of the National Coordinator for Health Information Technology (ONC)	Information Clearinghouse	Support for the development, enhancement, and distribution of clinically specific vocabularies to facilitate the exchange of clinical data and improve retrieval of health information from the National Library of Medicine.	OS	2008	0
HSTAT (Health Services and Technology Assessment Text)	Information Clearinghouse	This web-based resource contains full-text documents that provide health information and support health care decision making to health care providers, health service researchers, policy makers, payers, consumers and the information professionals who serve these groups.	AHRQ/CDC /SAMHSA	2002	0
Human Nutrition Research Information Management System	Information Clearinghouse	HNRIM is a searchable database of nutrition research and research training activities supported by the federal government and maintained by the NIH Division of Nutrition Research Coordination (DNRC).	CDC/FDA/HRSA	1985	0

Interagency Working Group on Human Stem Cell Transplantation	Information Clearinghouse	Goal is to inform each other about the current activities in their agencies in human stem cell transplantation.	CDC/FDA/HRSA	1998	0
National Clearinghouse for Alcohol and Drug Information	Information Clearinghouse	A clearinghouse operated by SAMHSA that distributed NIDA publications prior to the establishment of NIDA's clearinghouse.	SAMHSA	Unreported	150,000
Newborn Screening Standard Database	Information Clearinghouse	Development of a Newborn Screening Coding and Terminology Guide to facilitate the use of electronic health data standards in recording and transmitting newborn screening test results. The Web site includes standard codes and terminology for newborn tests and the conditions for which they screen.	CDC/HRSA/OS	2007	0
Osteoporosis and Related Bone Diseases—National Resource Center	Information Clearinghouse	Information website on Osteoporosis and related bone diseases.	OS	1998	956,467
Outreach Initiatives	Information Clearinghouse	To support activities and projects, including establishment of health information networks and funding workshops, forums, and symposiums.	OS	2001	400,000
Presentation of the Patient-Reported Outcomes Measurement Information System (PROMIS)	Information Clearinghouse	The purpose of the meeting was to exchange viewpoints on issues related to content validity of patient reported outcome measurements.	FDA	2008	0
U.S. Preventive Services Task Force (USPSTF): Pocket Guide to Clinical Preventive Services	Information Clearinghouse	This is an independent panel of experts in primary care and prevention that systematically reviews the evidence of effectiveness and develops recommendations for clinical preventive services.	AHRQ/CDC/CMS/ FDA/HRSA/IHS/ SAMHSA/OS	1989	0
Advising on human papillomavirus (HPV) tests	Other	NCI scientists advised the FDA on testing for human papillomavirus (HPV) infection.	FDA	2008	0
After-hours answering service for the HHS Secretary	Other	Service to ensure that health and related information can be accessed by individuals contacting HHS.	OS	1998	0
Back pain study	Other	Literature review relevant to back pain.	AHRQ	Unreported	250,000
Bethesda Hospital Partnership Contingency Station	Other	Integral component necessary for emergency preparedness and response within the community.	OS	2005	0
Bureau of Primary Health Care Interagency Agreement to Conduct Cardiovascular Health Activities in Selected Public Housing Communities	Other	Conducts cardiovascular health education activities in selected public housing communities.	HRSA	2006	0
Center for Biologics Evaluation and Research (FDA/CBER)	Other	Address cross-cutting issues related to therapy development for neurological disorders, from bench science to clinical trials and FDA approval and licensure.	FDA	2002	0
Community Guide Project*	Other	This free resource helps user to choose programs and policies to improve health and prevent disease in their community.	CDC	2007	0
Consolidated Health Informatics (CHI) and Electronic Health Records (EHR)	Other	This three-year project is developing methods to ensure that the UMLS Meta-Thesaurus is in step with HL7 Vocabulary Standards. A pilot transfer of EHR data using HL7 Messaging and Implementation guides will be conducted.	AHRQ/CDC/OS	2004	0
Consultative Assistance to the FDA regarding Domestic Scheduling of New Medications	Other	Develop and apply methods to ensure UMLS Meta-Thesaurus is in step with HL7 Vocabulary Standards	FDA	Unreported	0
Consulting on Natural History of Human Papillomavirus (HPV)	Other	Researchers provided scientific expertise on the natural history of human papillomavirus (HPV).	CDC	2008	0
Emergency Preparedness and Response	Other	Responsible for developing operational plans, analytical products, and training exercises to ensure the preparedness of the Office, the Department, the Federal Government, and the public to respond to domestic and international public health and medical threats and emergencies.	OS	2005	0
Enhance Capacity of Minority Institutions	Other	To enhance the capacity of minority institutions to conduct research and to expand biomedical career opportunities for minorities.	OS	1998	1,100,000

Enterprise Performance Life Cycle (EPLC) Presentations to the HHS Deputy CIO	Other	Provide information on EPLC to HHS management.	OS	Unreported	0
Federal HIV/AIDS Web Council (AIDS.gov)	Other	HHS-wide website of agency AIDS resources	CDC/CMS/FDA/HRSA/IHS/OS/SAMHSA	2006	0
Glycosciences Research Day	Other	Annual scientific symposium at which lectures and posters are presented highlighting intra- and extramural research in the glycosciences.	FDA	2008	3,191
Healthy People 2010 Second Midcourse Review	Other	Assessment of the nation's progress towards increasing the quality of life and eliminating health disparities.	ACF/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2000	0
Healthy People 2020	Other	Healthy People 2010 challenges individuals and communities to take specific steps to ensure that good health, as well as long life, are enjoyed by all.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2007	0
Heart Health Projects in 2 Filipino American Communities	Other	Conducts cardiovascular health education activities in selected Filipino American communities	HRSA	2007	0
ICD9CM Terminology Representation and Exchange Format (TREF)	Other	Create a machine readable version of ICD9CM in TREF.	CDC	2008	0
Laboratory for the Assessment of Medical Imaging Systems (LAMIS)	Other	LAMIS is a collaborative effort between the FDA Center for Devices and Radiological Health (CDRH) and NIBIB that was established as part of the NIBIB Intramural Research Program. The NIBIB provides postdoctoral researchers and equipment, while CDRH provides lab space, computer infrastructure, and mentoring staff. The unifying goal is to make safe and effective medical imaging products available to patients as quickly as possible.	FDA	2004	468,000
Lipid Standardization Program	Other	This program is unique among external quality-control systems (EQAS) in that it provides a way to establish, assess, and improve the accuracy—or trueness—of analytical measurements over time.	CDC	1948	725,000
Mechanisms of Behavior Change Speakers Series with NIAAA, NCI, OBSSR, and AHRQ	Other	A speaker series of three meetings that focused on mechanisms of behavior change (available in NIH webcast archives).	AHRQ	2008	6,114
Methylphenidate genetic toxicity collaboration	Other	NIMH held conference calls with FDA, NICHD, NIEHS to discuss gene toxicity data obtained in NIMH-funded cooperative agreement. The agreement examines long-term consequences of methylphenidate use in rhesus monkeys compared with results of a comparable FDA study in monkeys and an NIEHS funded study in children.	FDA	2007	0
My Family Health Portrait	Other	To help fund contracts related to the My Family Health History initiative.	IHS	2008	50,000
Native American Research Centers for Health (NARCH)	Other	The NARCH initiative, currently in its seventh year, supports partnerships between AI/AN Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	AHRQ/IHS	2000	4,361,000
Office of Laboratory Animal Welfare - addressing concerns	Other	The participating agencies share a common concern for the care and welfare of laboratory animals used in research and testing. Each agency, operating under its own authority, has specific responsibilities for fostering proper animal care and welfare.	FDA	2006	0
Partners in Information Access for the Public Health Workforce	Other	Website designed to help the public health workforce find and use information effectively to improve and protect the public's health.	AHRQ/CDC/HRSA /OS	1997	0
Personnel Detail	Other	Participates in FDA's Anti-Infective Drug Products Advisory Committee	FDA	2003	0
Personnel Detail	Other	Worked with the NIH Clinical Center's Department of Bioethics on a collaborative research project on Emergency Preparedness.	CDC	2007	0

Personnel detail from NIMH to OS	Other	Personnel served full time to assist Division of Oversight Director and staff responsible for conducting reviews of research misconduct inquiries and investigators.	OS	2008	127,443
Personnel detail of a senior FDA scientist to the Division of Skin and Rheumatic Diseases (DSRD) in the NIAMS Extramural Program	Other	In addition to experience with the FDA, this person's expertise in rheumatology, pain research, and clinical trial design and implementation were critical to the DSRD during this period.	FDA	2007	107,088
Personnel detail to OS office of the Assistant Secretary for Preparedness and Response (ASPR) for Chemical Medical Countermeasures	Other	Detailee assisted in developing chemical medical countermeasure responses.	OS	2004	0
PHS ad hoc review group for studies of medical applications of marijuana	Other	The Department of Health and Human Services (HHS) supports scientifically valid research to determine whether marijuana offers medical benefits. The NIH, along with the independent Institute of Medicine (IOM) conducts reviews of existing research on the medical effectiveness of marijuana for therapeutic uses in the treatments of cancer, infectious diseases, neurology and ophthalmology.	FDA	1999	0
Posting of information to the GUIDE	Other	The NIH Guide for Grants and Contracts is the official publication for NIH medical and behavioral research grant policies, guidelines and funding opportunities.	AHRQ/CDEC/FDA	2007	0
Promote Heart Healthy Behavior within the American Indian and Alaska Native Communities	Other	Collaboration to develop a community-driven initiative targeting multiple, evidence-based and locally supported changes in American Indian and Alaska Native communities.	IHS	2001	0
Promoting Cardiovascular Health Along the U.S.-Mexico Border	Other	Cardiovascular health education projects conducted along the U.S.-Mexico Border.	HRSA	2002	0
Report on Carcinogens	Other	Report issued to the HHS Secretary every two years.	ATSDR/CDC/FDA	1994	0
RxNorm/DailyMed	Other	This Web site provides health information providers and the public with a standard, comprehensive, up-to-date, look-up and download resource of medication content and labeling as found in medication package inserts.	AHRQ/FDA	2005	0
Sale of IT Services for Operating Division (OPDIV)	Other	CIT receives funding from each OPDIV to pay for IT services provided either through Interagency Agreement (IAA) or monthly recurring invoicing using the CIT billing system and Inter-governmental Payment and Collection System (IPAC).	ACF/AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/SAMHSA	1998	0
Signal Transcription Factors in Head and Neck Cancers - transcription nuclear factors	Other	Group collaboration on the pathogenesis, prevention, diagnosis, and treatment of neoplasms of the head and neck region that affect human communication.	FDA	2007	90,000
SNOMED International and Support Services	Other	SNOMED CT is one of a suite of designated standards for use in U.S. Federal Government systems for the electronic exchange of clinical health information and is also a required standard in interoperability specifications of the U.S. Healthcare Information Technology Standards Panel.	AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/SAMHSA	2003	5,934,950
Telecommunications support for COOP related tests and activations	Other	NIH provides telecommunications support for COOP-related tests and activations. In 2008, NIH conducted several tests, including before and after Presidential and Secretarial visits, and during and after the election.	OS	2004	0
Telenephrology Clinic	Other	The Director of the National Kidney Disease Education Program conducts a bi-weekly Telenephrology Clinic at the IHS's Zuni Community Health Center in New Mexico.	IHS	2006	0
The Pediatric Heart Network	Other	Financial support for the Marfan Trial from FDA's Office of Orphan Products Development	FDA	2006	12,254,539

Unified Medical Language System Metathesaurus (UMLS)	Other	System integrates and distributes key terminology, classification and coding standards, and associated resources to promote creation of more effective and interoperable biomedical information systems and services, including electronic health records.	AHRQ/CDC/CMS /FDA	2002	0
Federal Safety Reporting Portal	Other	The portal is an on-line tool for the collection and routing of both pre-and post market safety data. This portal will allow clinical care providers and investigators to prepare a single report, using a standardized format, and submit this information electronically to the federal government.	AHRQ/CDC/FDA/OS	2007	5,000,000
2010 Dietary Guidelines for Americans Working Group	Public Education Campaign	Working group guides the process for the <i>US Dietary Guidelines for Americans</i> and ultimately, takes recommendations and prepares a document used to set Federal nutrition policy.	AHRQ/CDC/FDA/OS	2007	0
Addiction Technology Transfer Center	Public Education Campaign	This nationwide, multidisciplinary resource is for professionals in the addictions treatment and recovery services field to raise awareness of evidence-based and promising treatment and recovery practices; build skills to prepare the workforce to deliver state-of-the-art addictions treatment and recovery services; and by incorporating these new skills into everyday use, it change practice to improve addiction treatment and recovery outcomes.	SAMHSA	2003	1,500,000
AIDS.Gov	Public Education Campaign	Contributions to guidelines and information about HIV-related opportunistic infections	CDC	1995	0
Association of Minority Health Professions Schools (AMHPS) Biomedical Symposium	Public Education Campaign	The AMHPS symposium provides minority and underrepresented students nationwide to learn about careers in biomedical research and other professional opportunities within the government and the private sector.	OS	2006	5,560
Childhood Overweight and Obesity Prevention Council	Public Education Campaign	Under the direction of the acting Surgeon General, this coordinating committee works with community stakeholders to develop and foster programs that share the goal of providing options for community-based interventions.	ACF/AHRQ/CDEC/CMS/FDA/HRSA/IHS/OS/OSG	2008	0
Diabetes Science Based Education in Tribal Schools (DETS)	Public Education Campaign	The DETS "Health Is Life in Balance" K-12 curriculum has been designed to increase American Indian and Alaska Native students understanding of health, diabetes, and maintaining life in balance as well as to increase interest in science and health professions among American Indian and Alaska Native youth.	CDC/IHS	2001	1,014,105
Dissemination of Research on Adolescent Treatment Issues	Public Education Campaign	The purpose of the NIAAA/CSAT interagency agreement was to disseminate information on evidence-based practices, support development of a meta-analysis on adolescent treatment for alcohol and drug use, and evaluate projects related to implementation of adolescent evidence-based projects.	SAMHSA	1998	0
Faith-Based Cardiovascular Disease Prevention Program for Women of Color	Public Education Campaign	Community based program to educate women of color about cardiovascular disease prevention.	OS	2008	0
Family History Initiative	Public Education Campaign	To encourage all American families to learn more about their family health history, the Surgeon General launched a national public health campaign, called the Surgeon General's Family History Initiative. The NIH co-sponsors activities related to this campaign.	OSG	2004	55,000
Global Health Related Activities	Public Education Campaign	Work with the Office of Global Health Affairs to enhance access to the medical literature, consumer health information, and disaster-related medical information in Central America, the Caribbean region, and areas along the US-Mexico border.	OS	2008	0
Guideline for prevention of catheter-related infections	Public Education Campaign	The Infectious Disease Society of America (IDSA) guidelines for the prevention of catheter-related Infections are available through this online site.	CDC	2003	0

Health Literacy Workgroup	Public Education Campaign	Office of Disease Prevention and Health Promotion's Health Communication Activities for Health Literacy Improvement	OS/OSG	2006	0
Healthy People 2010	Public Education Campaign	Healthy People 2010 challenges individuals and communities to take specific steps to ensure that good health, as well as long life, are enjoyed by all.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	1997	0
Healthy Vision Month Public Education Campaign	Public Education Campaign	Healthy Vision Month 2008 works to inform people about the need for children to prevent eye injuries by using protective eyewear when playing sports.	CDC	2005	0
Indian Country Methamphetamine Initiative	Public Education Campaign	To support the activities of the American Indian/Alaska Native Health Disparities Project with emphasis on methamphetamine abuse, suicide prevention, HIV/AIDS, and hepatitis C.	OS	2006	1,000,000
Know Stroke in the Community	Public Education Campaign	Website offers a wide range of materials about stroke prevention, treatment, and rehabilitation.	CDC	2004	0
Nashville General Hospital at Meharry (NGHM)	Public Education Campaign	To provide continuation funding for the NGHM to support the operations of the Center for Lifestyle and Health Management.	CDC	2008	1,000,000
National African –American Youth Initiative (NAAI)	Public Education Campaign	The NAAI allows qualified African-American high school students nationwide to participate in a program designed to keep them in the academic pipeline and encourage them to pursue careers in health care or biomedical research.	OS	2004	5,560
National Asthma Control Initiative	Public Education Campaign	National effort to promote implementation of the National Asthma Education and Prevention Program (NAEPP) asthma guidelines.	AHRQ/CDC/FDA	2008	2,050,000
National Coalition for Health Professional Education in Genetics/Genetic Resources on the Web (NCHPEG/ GROW)	Public Education Campaign	The NCHPEG is committed to a national effort to promote health professional education and access to information about advances in human genetics. NCHPEG members are an interdisciplinary group of leaders from more than 140 diverse health professional organizations, consumer and volunteer groups, government agencies, private industry, managed care organizations, and genetics professional societies.	HRSA	1996	0
National Diabetes Education Program	Public Education Campaign	Descriptive information unavailable at time of report filing.	CDC	1997	2,765,574
National Hispanic Youth Initiative (NHYI)	Public Education Campaign	Through the NHYI, qualified Hispanic students nationwide learn about careers in biomedical research and other professional opportunities within the government and the private sector.	OS	1998	5,560
National Kidney Disease Education Program	Public Education Campaign	the Campaign encourages communication and dissemination of information related to kidney disease.	AHRQ/CDC/CMS/FDA/HRSA/IHS/OS	1995	1,505,646
National Native American Youth Initiative (NNAYI)	Public Education Campaign	Through the NNAYI, qualified Native American students nationwide learn about careers in biomedical research and other professional opportunities within the government and the private sector.	OS	2001	5,560
National Women's Health Week	Public Education Campaign	This is a weeklong health observance to empower women to make their health a top priority and encourages women to take simple steps for a longer, healthier, and happier life. This nationwide initiative is collaboration between federal agencies, state and local governments and the general public.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2008	0
Oral Health, Cancer Care, and You	Public Education Campaign	A series of publications to inform health care providers and patients about steps they can take before, during, and after cancer treatment to reduce the risk and impact of often painful oral side effects.	CDC	1999	8,000
Practical Oral Care for People with Developmental Disabilities	Public Education Campaign	A series of publications designed to equip dental professionals in the community with the information they need to deliver quality oral health care to people with special needs.	CDC	2004	45,000

Recovery Month	Public Education Campaign	The Recovery Month Web site aims to promote the societal benefits of alcohol and drug use disorder treatment, laud the contributions of treatment providers, and promote the message that recovery from alcohol and drug disorders in all its forms is possible.	HRSA/SAMHSA	2000	0
The Heart Truth	Public Education Campaign	The campaign's goal is to deliver an urgent wakeup call about the risk of heart disease to American women.	OS	2001	2,194,939
The Science of Sex and Gender in Human Health	Public Education Campaign	Online educational course	AHRQ/FDA	2006	14,341
The Surgeon General's Call to Action to Prevent and Reduce Underage Drinking and the Guides to Action for Families, Communities and Educators	Public Education Campaign	NIAAA partnered with OSG and SAMHSA to develop and disseminate the Call to Action.	OSG/SAMHSA	2005	0
Vulvodynia Awareness Campaign	Public Education Campaign	To raise awareness about vulvodynia, a chronic unexplained pain or discomfort of the vulva.	AHRQ/CDC/FDA /HRSA/OS	2006	0
Women's Health Daybook	Public Education Campaign	Resources on more than 25 different diseases and conditions and information on ways women can reduce their risk for many serious health problems.	OS	2006	0
Action to Control Cardiovascular Risk in Diabetes (ACCORD) clinical trial*	Research Initiative	The CDC is contributing intellectually and financially to the Health Related Quality of Life and Cost Effectiveness substudies of the trial.	CDC	1999	24,740,998
Adaptations Of <i>Borrelia</i> Spirochetes To Their Tick Vectors and Mammalian Hosts	Research Initiative	Project aims to improve diagnostic tests for and perform comparative genomics between Lyme disease and relapsing fever spirochetes as well as map the distribution of these spirochetes.	CDC	1987	951,648
Adult to Adult Living Donor Liver Transplant Cohort Study (AALDLT)	Research Initiative	This national project investigates the experience of a group of patients eligible for living donor liver transplantation, focusing on the factors influencing outcomes of transplants for both donors and recipients. The primary goal of this study will be to provide valuable information on the outcomes of AALDLT. This information is needed to aid decisions made by physicians, patients, and potential donors. The study will establish and maintain the infrastructure required to accrue and follow sufficient numbers of patients being considered for and undergoing AALDLT to provide generalizable data.	HRSA	2002	2,718,901
Agricultural Health Study	Research Initiative	Assuring the public that the system is as effective and equitable as possible.	CDC	1998	611,760
Alzheimer's Disease Neuroimaging Initiative	Research Initiative	The Alzheimer's Disease Neuroimaging Initiative will be used to help researchers and clinicians develop new treatments and monitor their effectiveness. This will increase the safety and efficiency of drug development by decreasing the time and cost of clinical trials. This project is the most comprehensive effort to date to identify neuroimaging and other biomarkers of the cognitive changes associated with Mild Cognitive Impairment (MCI) and Alzheimer's Disease (AD).	FDA	2004	8,583,081
American Indian/Alaska Native Health Research Council	Research Initiative	To support the activities of the Council, including obtaining input from tribal leaders on health research priorities and needs; and dissemination of information.	OS	2006	16,700
Animal Models for Research in GVHD: Knowledge Gaps and Future Directions.	Research Initiative	Initiative to define the limitations that have impeded progress in preventing and treating graft-versus-host disease (GVHD).	FDA	2008	4,000
Artificial Pancreas Working Group	Research Initiative	Joint activity to speed the development of an artificial pancreas.	CMS/FDA	2007	0

Assay Development (ELISA and Rapid Test) to Detect and Distinguish HIV Infection from HIV Vaccine-Induced Responses	Research Initiative	This project provides the FDA with input regarding ELISA and Rapid Test development and specimens testing, assistance, and coordination to obtain specimens from NIAID-supported clinical trials, and NIAID R&D contract resources for assay testing.	FDA	2004	0
Assessing Safety of Cell Substrates and Vaccine Components	Research Initiative	This contract supports vaccine development.	FDA	2006	2,254,678
Assessment of Patients With Lyme Infection	Research Initiative	This project aims to translate advances of scientific knowledge in Lyme disease into clinical practice with three associated clinical protocols and focused research on lab diagnosis, clinical manifestations, and immune responses.	CDC	1996	74,977
Autoimmune Disease Coordinating Committee (ADCC)	Research Initiative	Committee established in FY 98, at the request of Congress, to increase collaboration and facilitate coordination of research among NIH Institutes, Centers, and Offices; other federal agencies; and private organizations and patient advocacy groups with an interest in autoimmune diseases.	CDC/FDA	1998	0
BARDA (Biomedical Advanced Research and Development Authority) Advanced Development of New Medical Countermeasures	Research Initiative	Contracts issued for the advanced development of anthrax antitoxins, therapeutics and antibiotics for use against plague and tularemia.	OS	2007	0
Bench-to-Bedside Program	Research Initiative	The Bench-to-Bedside Program was originally established in 1999 to integrate the work of basic and clinical intramural scientists.	FDA	1999	0
Bilateral and Multilateral Activities	Research Initiative	This provides contract support for HHS bilateral and multilateral activities outside U.S. and/or with international entities that will advance HHS/NIH's program in conducting medical research that improves people's health, as well as enhance NIH scientists' ability to conduct such research.	OS	2000	43,777
Biochemical and Molecular Characterization of Enzymes Secreted by Leishmaniasis	Research Initiative	This research is aimed at identifying the unique physiological properties of Leishmaniasis enzymes in survival, growth, development, and transmission, with the goal to develop new therapies, diagnostics, and prophylactic measures against Leishmaniasis.	FDA	1998	173,554
Biodefense Research Program	Research Initiative	This program provides three years of financial support to intramural researchers from other NIH ICs and the FDA for highly meritorious research relevant to the NIAID research agenda for Category A, B and C agents.	FDA	2007	880,164
Body Mass and Mortality Relationships	Research Initiative	Study of the relationships between categories of body mass and mortality in the U.S. population.	CDC	2004	0
Building Interdisciplinary Careers for Women's Health Research (BIRCWH)	Research Initiative	A NIH Institutional Mentored Research Career Development Program Award (K12) that supports junior male and female investigators who are conducting research in women's health and pairs them with established senior investigators.	AHRQ	1999	4,238,660
Cell and Developmental Biology of Trypanosomatid Parasites	Research Initiative	The basic cell, molecular, and developmental biology of Leishmania and related protozoa are investigated to identify and characterize parasite molecules essential for survival.	FDA	1992	173,554
Childhood Cancer among Children with Birth Defects in California	Research Initiative	In collaboration with investigators from the Birth Defects Branch, CDC, Stanford University and the Northern California Cancer Center, a registry study has been undertaken that links data from the California Birth Defects Registry and the state of California Cancer Registry to quantify risks of different types of pediatric cancer associated with birth defects.	CDC	2008	80,000
Clinical Islet Transplantation Consortium – clinical trial in Medicare beneficiaries	Research Initiative	Mandated in the Medicare Prescription Drug, Improvement, and Modernization Act of 2003.	CMS/FDA/HRSA	2004	6,474,452
Clinical Outcomes of Live Organ Donors	Research Initiative	This project consists of 3 clinical sites and a data coordinating center to investigate the socioeconomic and medical outcomes of individuals who donated a kidney or lung for transplantation.	HRSA	2005	2,193,898

Collaborative Research Using Health Care Utilization Project Data*	Research Initiative	As part of an interagency agreement (IAA), this project uses national hospital discharge data to describe temporal and spatial patterns in infectious diseases, co-infections, and the effect of co-morbidities on disease burden. The focus is on nontuberculous mycobacteria and bronchiectasis.	AHRQ	2001	10,000
Collaborative studies of genomic tests of potential public health utility in cancer	Research Initiative	An interagency agreement (IAA) with CDC that takes advantage of a repository of DNA samples.	CDC	2007	0
Conducting Comprehensive Toxicological Assessments	Research Initiative	This collaboration capitalizes on NIOSH' unique access to occupationally-exposed populations to provide a real-world context for the toxicology studies conducted by the National Toxicology Program.	CDC	1997	260,000
C-peptide Standardization Program	Research Initiative	To provide comparison and standardization of the clinical measurement of C Peptide.	CDC	2002	76,155
Creating a Clinical Research Infrastructure to Address Health Disparities in American Indians/Alaska Natives: Expanding Nursing Research Capabilities	Research Initiative	Virtual Community was created to facilitate collaborative activities through iCoHere	IHS	2005	0
Criminal Justice-Drug Abuse Treatment Studies (CJ-DATS)	Research Initiative	Cooperative research program to explore the issues related to the complex system of offender treatment services. Nine research centers and a Coordinating Center were created in partnership with researchers, criminal justice professionals, and drug abuse treatment practitioners to form a national research infrastructure.	SAMHSA	2003	2,060,037
Cross-site Evaluation of the Mental Health Transformation State Incentive Grant Program (MHTSIG)	Research Initiative	This is a cross-site evaluation of the Mental Health Transformation State Incentive Grant (MHT SIG) program in order to improve the knowledge base related to the transformation of mental health services in the United States.	SAMHSA	2006	50,000
Dengue Virus Genomes Project	Research Initiative	The goal of the project is to sequence a diverse set of dengue viruses collected globally.	CDC	2006	183,917
Determination of aflatoxins, ochratoxin A, and fumonisins in botanical dietary supplement raw materials and finished products	Research Initiative	http://ods.od.nih.gov/	FDA	2005	50,000
Determination of arsenic, cadmium, lead, and mercury in botanical dietary supplement raw materials and finished products	Research Initiative	http://ods.od.nih.gov/	FDA	2007	50,000
Determination of pesticides in botanical dietary supplement raw materials and finished products	Research Initiative	http://ods.od.nih.gov/	FDA	2005	50,000
Development and validation of AOAC official methods of analysis	Research Initiative	http://ods.od.nih.gov/	FDA	2004	150,000
Development of a Prototype MRI Breast Imaging Physical Phantom	Research Initiative	Using raw digital data acquired from breast MRI examinations performed in an NCI study of Breast MRI Screening in Women at Increased Genetic Risk of Breast Cancer, collaborators at the FDA (CDRH/OSEL/DIAM) are developing a novel, physical, tissue-mimicking phantom for quantitative task-based assessment of breast DCE-MRI protocols.	FDA	2008	0
Development of Improved DPTA for Radionuclide Chelation	Research Initiative	These contracts provide support for the development of alternative structures or formulations of diethylenetriaminepenta-acetate (DPTA) that are more suitable for a mass casualty situation.	OS	2007	0
Development of New Approaches to Vaccines Against TBEV and West Nile Virus	Research Initiative	This project aims to develop and evaluate vaccines against tick-borne encephalitis virus, West Nile virus, and St. Louis encephalitis virus.	FDA	1987	1,009,924
Development of Therapeutic Agents for Selected Biodefense Bacterial Diseases	Research Initiative	The purpose of this effort is to advance the development of candidate therapeutics against one or more bacterial pathogens.	OS	2008	0
Diabetes Autoantibody Standardization Program (DASP)	Research Initiative	The fundamental aim of DASP is to improve the measurements of the autoantibodies predictive of Type 1 Diabetes Mellitus (T1DM).	CDC	1998	675,000

Diabetes Prevention Program (DPP) and Diabetes Prevention Program Outcomes Study (DPPOS)*	Research Initiative	The Diabetes Prevention Program is funded to determine the safety and efficacy of two interventions (intensive lifestyle and metformin) relative to a control group (standard lifestyle recommendations) in preventing or delaying the confirmed development of diabetes. The objective of the study is to prevent or delay the onset of diabetes among persons at high risk using interventions designed to improve abnormal glucose metabolism.	CDC/IHS	1994	12,361,000
Diabetes Prevention Program Outcomes Study (DPPOS)*	Research Initiative	The principal objective of the DPPOS is to prevent or delay the development of non-insulin-dependent diabetes mellitus (NIDDM) in those persons who are at high risk for its development by virtue of having impaired glucose tolerance. Impaired glucose tolerance represents a less severe stage of blood glucose abnormalities that often precedes NIDDM.	IHS	2002	411,614
Diabetic Retinopathy Clinical Research Network*	Research Initiative	Clinical Trial Network co-funded with <i>Special Funding Program for Type 1 Diabetes Research</i> (HHS).	OS	2002	4,375,505
Diet and Communication Work Group	Research Initiative	This group focused on the development and implementation of effective communication strategies related to diet and health. A funding opportunity announcement was recently released.	CDC/FDA	2004	0
Dietary Supplements, Analytical Methods, and Reference Materials Standards Program	Research Initiative	Collaborations between the National Institute of Standards and Technology (NIST), the Office of Dietary Supplements (ODS), the Food and Drug Administration (FDA), and other Federal government agencies to produce reference materials and calibration standards relevant to dietary supplements.	FDA	2007	700,000
Domestic Scheduling to Control New Drugs of Abuse, with NIDA-Funded Testing Conducted in Support of DEA Scheduling Recommendations to the FDA	Research Initiative	HHS depends upon NIDA contracts to generate the <i>in vitro</i> and animal behavioral data that are required to test new street drugs.	FDA/OS	Unreported	700,000
Drug Discovery Programs for Medication Potential (Computational Toxicology)	Research Initiative	Provides data for compounds in NIDA's Addiction Treatment Discovery Program, helping to streamline compound advancement decisions. The service is available to other agencies and organizations, thereby facilitating their ability to prioritize compounds.	FDA	2002	100,000
Drug Safety Testing using Genetically-Modified Mouse Models	Research Initiative	Toxicity and carcinogenicity research on AIDS drugs (e.g., AZT) in transgenic mice.	FDA	2007	0
Dynamics of Health, Aging, and Body Composition (Health ABC)	Research Initiative	This ancillary study involves collection of data on the health of aging participants using procedures or measurements not included in the original Health ABC protocol.	CDC	1997	741,496
EDRN (Early Detection Research Network) Clinical Validation of Molecular Signatures of Cervical Cancer*	Research Initiative	Conduct population-based research on cervical disease in high risk women using molecular methods and proteomics analysis software that will integrate demographic data with molecular data.	CDC	2000	827,149
Enhancing Practice Improvement in Community-Based Care for Prevention and Treatment of Drug Abuse or Co-occurring Drug Abuse and Mental Disorders	Research Initiative	Initiative for conducting practice improvement research by community-based providers of drug abuse prevention/treatment services, including services for individuals with co-occurring mental disorders.	SAMHSA	2005	150,000
Enhancing Practice Improvement in Community-based Care for Prevention and Treatment of Drug Abuse or Co-occurring Drug Abuse and Mental Disorders	Research Initiative	Updated request for conducting practice improvement research by community-based providers of drug abuse prevention/treatment services, including services for individuals with co-occurring mental disorders.	SAMHSA	2005	163,791
Epidemiology of Nontuberculous Mycobacteria and Bronchiectasis Among Medicare Beneficiaries- in the U.S., 1997-2006: Burden, Trends, Risk Factors, and Cost *	Research Initiative	This is an epidemiological study of non-tuberculosis mycobacteria and bronchiectasis among Medicare beneficiaries. Using a 5 percent sample of Medicare enrollees representing 4 million persons, the study describes burden, risk factors, and cost for non-tuberculosis mycobacteria and bronchiectasis.	CMS	2008	21,450

Equity and Efficiency in Health Care Reform	Research Initiative	Project designed to bring together individuals who have thought deeply about various aspects of health care reform from diverse perspectives: economic, medical, legal, and ethical.	AHRQ	2006	0
Evidence-based Medicine	Research Initiative	Search engine to uncover information on specific evidence-based medicines.	CDC	2005	0
FDA CDRH Research Fellow	Research Initiative	Support for ½ FTE research fellowship to work on web accessible databases for the NCI "Reference Image Database to Evaluate Responses" (RIDER) project and related analysis of this data.	FDA	Unreported	50,000
Fish nutrients and contaminants and their effects on maternal and infant outcomes	Research Initiative	Analysis is being conducted to quantify the methyl-mercury and trace metals in maternal blood as well as the fatty acid composition of umbilical cord blood in this large population cohort. Risks and benefits of these components of seafood will be assessed in relationship to childhood neurodevelopmental outcomes including low verbal IQ behavioral measures and physical developmental measures.	CDC	2005	0
Frequent Hemodialysis Network (FHN) Trials*	Research Initiative	This randomized controlled trial will compare the benefits of a conventional schedule of dialysis to a more frequent regime.	CMS	2003	3,198,621
Health Disparities Partnership	Research Initiative	To increase research on minority health issues, improve databases, collect data, and demonstrate approaches to ensure general and timely dissemination of research results.	OS	2007	1,700,000
Healthy People 2010 Kidney Disease	Research Initiative	Initiative focuses on issues related to Kidney Disease and the 2010 Healthy People Campaign.	CDC	1998	0
HEALTHY—Clinical trial to prevent risk factors for type 2 diabetes in middle school children*	Research Initiative	The HEALTHY study will determine if changes in school food services and physical education (PE) classes, along with activities that encourage healthy behaviors, lower risk factors for type 2 diabetes, an increasingly common disease in children and young adults.	CDC	2004	27,387,404
Hepatitis B Initiative	Research Initiative	Supports DHHS Hepatitis B health disparity projects.	OS	2008	300,000
HIV Genetic Diversity	Research Initiative	Follows the molecular evolution of HIV in infected individuals in the West African country of Cameroon.	FDA	2005	0
HIV Prevention Trials Network (HPTN) (Domestic HIV prevention research initiative within HPTN)	Research Initiative	The HIV Prevention Trials Network (HPTN) is a worldwide collaborative clinical trials network that develops and tests the safety and efficacy of primarily non-vaccine interventions designed to prevent the transmission of HIV.	CDC	2007	0
HIV Rapid SELECTEST	Research Initiative	Development of test to distinguish between individuals with antibody to HIV due to previous HIV vaccine immunization vs. individuals that are truly HIV infected.	FDA	2005	0
Host Susceptibility Initiative, NTP – CDER, FDA . Genetic Research on Idiosyncratic Agents (Cardiotoxins, Hepatotoxins)	Research Initiative	This initiative uses mouse models to assess responses to various cardiotoxins and hepatotoxins.	FDA	2007	0
Human Interferons: Structure and Function	Research Initiative	This project studies the structure and function of human interferon-alpha with the goal of developing novel chimeric versions with antiviral activity.	FDA	2004	311,017
Image-guided interventions study, including the development and study of animal models of disease and therapeutics*	Research Initiative	NIH receives expert counseling from our regulatory and scientific collaborators regarding imaging, procedural animal husbandry, experimental design, vascular physiology, veterinary medicine, interventional radiology, multimodality equipment, post-processing and safety consideration for pre-clinical translational paradigms coming up the pathways related to drugs and devices or combination products, device navigation or image-guided drug deliver.	FDA	2003	180,000

Immune Regulation and Vaccine Development in Leishmaniasis	Research Initiative	The goal of this research is to define the host immune mechanisms that control chronic forms of Leishmaniasis, design intervention strategies that will counteract these mechanisms, and aid development of a therapeutic vaccine.	FDA	1987	655,874
Immunotoxicity of Workplace Xenobiotics	Research Initiative	The objective of this project is to add to the immunological database that has been established for humans exposed to xenobiotics in the workplace. Areas that will be examined include the influence xenobiotics have in the development of asthma, autoimmunity, immunosuppressant and inflammatory processes.	CDC	2000	531,000
Improving the measurement of Hemoglobin A1c (HbA1c)	Research Initiative	To improve and standardize HbA1c measurements and data interpretation across clinical systems and national harmonization programs. HbA1c is a measure of average glucose concentration over prolonged periods of time.	CDC	2004	600,000
Incidence of Breast and Other Cancers among Female Flight Attendants	Research Initiative	A cohort study to determine whether female flight attendants are at increased risk of breast and other cancers and whether risk is related to cosmic radiation dose.	CDC	1999	0
Influenza Viral Pathogenesis	Research Initiative	This project aims to understand the pathogenic mechanisms for pandemic influenza strains, such as the 1918, the current H5N1, and epidemic strains.	CDC	2007	1,234,735
Interaction of Pathogenic Bacteria With Human Phagocytic Leukocytes	Research Initiative	This project studies how some immune cells, called neutrophils, ingest and destroy bacteria and how bacterial pathogens, such as <i>Staphylococcus aureus</i> , evade destruction.	CDC	2001	806,192
Isolation and Serotypic Characterization of Human and Animal Rotaviruses	Research Initiative	This project aims to determine antigenic relationships of various human and animal rotavirus strains to understand their epidemiology and formulate effective vaccine strategies.	FDA	1993	241,759
Katrina Relief	Research Initiative	To support activities involving minority health and health disparities populations impacted by Hurricane Katrina.	OS	2005	3,200,000
Long-term Oxygen Treatment Trial (LOTT)*	Research Initiative	Ongoing trail to evaluate the effectiveness of supplemental oxygen therapy in treating people with COPD.	CMS	2007	10,042,000
Look AHEAD (Action for Health in Diabetes) – Support for Economic Evaluation Activities and Implementation of the Lifestyle Intervention*	Research Initiative	Look AHEAD examines overweight volunteers with type 2 diabetes and the long-term effects of an intensive lifestyle intervention program designed to achieve and maintain weight loss by decreased caloric intake and increased physical activity.	CDC	1999	18,681,190
Look AHEAD clinical trial of weight loss in type 2 diabetes*	Research Initiative	Look AHEAD examines overweight volunteers with type 2 diabetes and the long-term effects of an intensive lifestyle intervention program designed to achieve and maintain weight loss by decreased caloric intake and increased physical activity.	IHS	2001	1,342,983
Maintenance of an Armadillo Colony	Research Initiative	This contract supports basic research for leprosy.	HRSA	2006	683,602
Malaria Vaccines: CSP-rEPA/ Alhydrogel	Research Initiative	This project aims to develop a protein-based malaria vaccine targeting the liver stage of parasite development and will be used with current vaccines targeting blood and mosquito stage parasites.	FDA	2007	731,837
Mechanisms of Community MRSA Virulence	Research Initiative	The project aims to develop and promote development of enhanced diagnostics, prophylactic agents, and new treatments for MRSA.	CDC	2008	806,192
Medical Countermeasures Against Radiological and Nuclear Threats	Research Initiative	Provide scientific input regarding medical countermeasures for radiation injury for radiological-nuclear terrorism	OS	2002	0
Meharry Integrated Health Delivery System	Research Initiative	To support the Meharry Demonstration project to establish an integrated health delivery system in a historically underserved community.	OS	1998	1,200,000
Methods for genetic epidemiology	Research Initiative	NCI is collaborating on methods in genetic epidemiology for studies of gene-environment interaction, analyzing and interpreting genome-wide association studies and for determining how far along we are in identifying the genetic variants that cause complex disease.	CDC	2008	0

Mix and Match - H5N1 Vaccine Development Program	Research Initiative	This is a HHS-coordinated activity to evaluate a H5N1 vaccine with and without adjuvants; NIAID will conduct two Phase I clinical trials.	CDC	2007	0
Modeling of infectious disease agent systems (MIDAS) consultations and committee participation	Research Initiative	MIDAS investigators collaborated with AHRQ and CDC on a study of MRSA spread among health care settings in Orange County California. MIDAS contributed modeling and map-making expertise to the collaborative effort.	AHRQ/CDC	2008	250,000
Models of Infectious Disease Agent Study (MIDAS) Steering Committee for the MIDAS program	Research Initiative	The Models of Infectious Disease Agent Study (MIDAS) is a collaboration of research and informatics groups to develop computational models of the interactions between infectious agents and their hosts, disease spread, prediction systems, and response strategies.	CDC	2007	0
Molecular Biology of Oral Microbial Adhesins and Receptors	Research Initiative	Study of infectious agents or their byproducts, which can penetrate the naked epithelial barrier and initiate an inflammatory response, as happens in gingival disease.	FDA	1998	0
Molecular Epidemiology of Bacteria and Viruses	Research Initiative	This activity assesses the diversity of a nationally representative sample of <i>Neisseria meningitidis</i> from Brazil through gene sequencing.	FDA	2005	85,096
National Health and Nutrition Examination Survey Collaborative Genomics Project (NHANES III)	Research Initiative	Study to estimate population prevalence of selected genetic variants of public health significance and to examine the associations between the selected genetic variants and disease outcomes available in NHANES III data.	CDC	2006	0
National Health and Nutrition Examination Survey (NHANES)	Research Initiative	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	2001	200,000
National Health and Nutrition Examination Survey (NHANES)	Research Initiative	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	1998	578,075
National Health and Nutrition Examination Survey (NHANES) - Celiac disease pilot testing	Research Initiative	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	1996	84,218
National Health and Nutrition Examination Survey (NHANES) Cardiovascular, pulmonary and sleep prevalence risk factors and disease	Research Initiative	Components of NHANES geared to establish national data on prevalence of cardiovascular, pulmonary and sleep risk factors and disease.	CDC	1997	2,113,000
National Health and Nutrition Examination Survey (NHANES) dual-energy x-ray absorptiometry (DXA) Study	Research Initiative	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	1999	330,910
National Health and Nutrition Examination Survey Oral Health component: Assessment of periodontal disease and dental caries prevalence and severity	Research Initiative	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	2008	551,026
National Health and Nutrition Examination Survey Oral Health component: Development of enamel fluorosis imaging project	Research Initiative	The National Health and Nutrition Examination Survey (NHANES) is a program of studies designed to assess the health and nutritional status of adults and children in the United States.	CDC	2008	200,000
National Health Interview Survey (NHIS) – Development of diabetes interview components, funding for collection of data	Research Initiative	The National Health Interview Survey (NHIS) has monitored the health of the nation since 1957. NHIS data on a broad range of health topics are collected through personal household interviews. For over 50 years, the U.S. Census Bureau has been the data collection agent for the National Health Interview Survey. Survey results have been instrumental in providing data to track health status, health care access, and progress toward achieving national health care objectives.	CDC	1989	0
National Hispanic Science Network (NHSN)	Research Initiative	The NHSN brings together scientists and students from the US, Latin America and Spain to promote new discoveries in Hispanic drug abuse research and to train and mentor the most promising young scientists to succeed in drug abuse research careers.	SAMHSA	2008	65,000

Native American Research Center for Health (NARCH)	Research Initiative	The NARCH initiative supports partnerships between American Indian and Alaska Native (AI/AN) Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	AHRQ/IHS	2006	100,000
Native American Research Centers for health (NARCH)	Research Initiative	The NARCH initiative supports partnerships of American Indian and Alaska Native (AI/AN) Tribes, tribal organizations, or non-profit national or area Indian Health Boards, with institutions that conduct intensive academic-level biomedical and behavioral research.	IHS	2005	189,035
Native American Research Centers for Health (NARCH)	Research Initiative	The NARCH initiative supports partnerships between AI/AN Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	IHS	2001	522,877
Native American Research Centers for Health (NARCH) - Great Lakes	Research Initiative	Provides a cooperative structure for the development and implementation of high quality, culturally sensitive and community supported research linked to health disparity issues.	IHS	2007	430,960
Native American Research Centers for Health (NARCH) Awards	Research Initiative	The NARCH initiative supports partnerships between AI/AN Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	IHS	2005	66,927
Native American Research Centers for Health (NARCH) funding for 2 Studies	Research Initiative	Bronchiectasis Observational Study and screening for asthma among children in Northern Plains tribal communities.	IHS	2006	152,581
Native American Research Centers for Health (NARCH) Grants	Research Initiative	The NARCH initiative supports partnerships between AI/AN Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	IHS	Unreported	4,000
Native American Research Centers for Health (NARCH) White Mountain Tribe Grant	Research Initiative	The NARCH initiative supports partnerships between AI/AN Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	IHS	2008	50,000
Native American Research Centers for Health (NARCH): Implications of Specimen Banking Among Alaska Native People	Research Initiative	The NARCH initiative supports partnerships between AI/AN Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	IHS	2006	467,856
Native American Research Centers for Health Three (NARCH 3)	Research Initiative	The NARCH initiative supports partnerships between AI/AN Tribes or Tribally-based organizations and institutions that conduct intensive academic-level biomedical, behavioral and health services research.	IHS	2005	700,000
Nested Case-Control Study of Chlamydia Trachomatis Antibodies and Prostate Cancer	Research Initiative	A collaboration with the CDC Chlamydia Laboratory for identifying antibodies to Chlamydia trachomatis in 868 prostate cancer cases and 1283 matched controls.	CDC	2003	0
Nested case-control study of lung cancer and diesel exhaust among non-metal miners	Research Initiative	A retrospective cohort mortality and nested case-control study of about 8,200 non-metal miners (184,000 person-years) to investigate risk of lung cancer in relation to quantitative measures of exposure to diesel exhaust.	CDC	1996	63,777
Network for Improvement of Access to Treatment (NIATx)	Research Initiative	NIATx offers simple and innovative solutions to help behavioral health providers get more people into treatment, keep them there, reduce costs, improve staff morale and increase revenue using existing resources.	SAMHSA	2003	2,120,970
Network for Translational Research: Optical Imaging (NTROI)*	Research Initiative	Research network to develop a consensus on the validation of optical imaging platforms as necessary to support clinical trials.	FDA	2003	1,124,498
New Scientific Approaches to Facilitate Development of Vaccines and Related Products	Research Initiative	This project aims to advance vaccine development for biodefense and emerging diseases, focused on anthrax, poxviruses, tularemia, and Ebola.	FDA	2006	2,796,534
New Technology to Screen for Mild Hearing Loss in Children	Research Initiative	The Initiative solicits Small Business Innovation Research (SBIR) grant applications from small business concerns (SBCs) for the modification or development of new screening technologies that are better able to consistently detect mild hearing loss .	CDC	2006	0

Nutritional Biochemistry in the Age-Related Eye Disease Study 2 (AREDS2)*	Research Initiative	The Age-Related Eye Disease Study 2 (AREDS2) is a multi-center, randomized trial designed to assess the effects of oral supplementation of macular xanthophylls (lutein and zeaxanthin) and/or long-chain omega-3 fatty acids (docosahexaenoic acid) [DHA] and eicosapentaenoic acid [EPA]) on the progression to advanced age-related macular degeneration (AMD).	CDC	2006	50,500
Obesity and the Built Environment Program*	Research Initiative	Initiative to support projects that delineate the significance and impact of the built environment on overweight and obesity	CDC	2005	3,386,375
Oxidant-induced apoptosis is mediated by oxidation of the actin-regulatory protein cofilin	Research Initiative	Laboratory collaboration on basic research investigation of the oxidative modification of cofilin. The major NIH contribution was to identify the types and sites of modification in the protein.	FDA	2007	0
Package and Distribution of Nutritional Biochemistry for AREDS 2*	Research Initiative	Provides support services to all components of the U.S. Department of Health and Human Services (HHS) and other Federal government agencies worldwide. This broad range of nearly 60 services and products include administrative operations, health resources, IT support, financial management, occupational health, and strategic acquisitions.	OS	2006	391,675
Partnership for AIDS Vaccine Evaluation 100 (PAVE 100)	Research Initiative	Consortiums of U.S. government agencies & key government funded organizations involved in HIV vaccine development & clinical trials	CDC	2003	0
Passive Administration of B12 Monoclonal Antibody for Modeling of Repeated Low Dose SHIV Challenge	Research Initiative	Basic research to model repeated low dose SHIV challenge.	CDC	2006	0
Pathogenesis and Chemotherapy of Herpesvirus Infection	Research Initiative	This project aims to understand the mechanisms by which herpes viruses establish latent infections and to identify targets for treating herpesvirus infections.	FDA	2008	310,227
Pneumococcal Human Reference Standard Serum	Research Initiative	This program develops a standardized, highly characterized composite of sera from volunteers vaccinated against <i>Streptococcus pneumoniae</i> , in support of vaccine trials, method validation and equipment calibration.	FDA	2006	756,821
Poxvirus Pathogenesis and Immunity	Research Initiative	This project aims to understand how poxviruses cause disease and to develop safer and more potent poxvirus vaccines and immunotherapies.	CDC	2006	937,274
Prevention Research Centers*	Research Initiative	The Prevention Research Centers fund community-based research projects at 35 academic research centers across the United States including 5 developmental and 30 comprehensive centers.	CDC	2005	740,000
Protein Synthesis and Developmental Transitions In <i>Plasmodium</i>	Research Initiative	This project aims to understand the organization of genetic diversity of a single host-parasite pair in a natural setting to extend understanding of malaria transmission and biology.	FDA	1982	689,871
Quality Care*	Research Initiative	To improve the quality of care for Medicare beneficiaries through interventions focused on efforts to improve diabetes measures and to detect the incidence, decrease the progression, and improve care of those with Chronic Kidney Disease (CKD), in targeted underserved populations.	CMS	2008	3,000,000
Racial and Ethnic Approaches to Community Health Across the U.S. (REACH US)	Research Initiative	Racial and Ethnic Approaches to Community Health (REACH) serves African American, Asian American, Pacific Islander, Hispanic American, American Indian, and Alaskan Native populations at increased risk for HIV/AIDS, cardiovascular disease, breast and cervical cancer, diabetes and infant mortality.	CDC	2001	1,000,000

Randomized Intervention in Children with Vesicoureteral Reflux (RIVUR)	Research Initiative	The purpose of this study is to learn whether all children with vesicoureteral reflux (VUR) should be treated with antibiotics. The study will tell us if prophylactic antibiotic treatment prevents urinary tract infections and renal scarring in children with VUR.	OS	2006	4,692,726
Reducing Mental Illness Stigma and Discrimination	Research Initiative	Initiative will assess the effectiveness of existing stigma and discrimination reduction programs and approaches, including media-oriented approaches such as public service announcements; develop innovative new programs and approaches; and examine the role of media in perpetuating and changing mental illness stigma and discrimination.	SAMHSA	2006	0
Regulation of B. pertussis virulence genes	Research Initiative	Research project focuses on genes of <i>Bordetella pertussis</i> that encode surface proteins that facilitate adhesion of the bacterium to epithelial cells in the human respiratory tract.	FDA	2007	50,000
Research in diabetes mellitus, its complications, and obesity	Research Initiative	The objectives are to identify the determinants of type 2 diabetes, obesity, and other chronic diseases in Pima Indians and to understand their progression.	IHS	1965	5,150,000
Resources for Enhancing Alzheimer's Caregiver Health (REACH II)	Research Initiative	First randomized, controlled trial to look at effectiveness of an AD caregiver support intervention for ethnically diverse populations.	AoA	2008	0
Role of TGF-beta signaling in head and neck squamous cell carcinoma	Research Initiative	Basic research project on growth factor involvement in head and neck cancers.	FDA	2005	0
RuSH	Research Initiative	Initiative to build data system in hemoglobinopathies.	AHRQ/CDC/FDA/HRSA	2007	0
Screening and Brief Intervention Models to Address Unhealthy Drug Use	Research Initiative	This clinical trial will assess the effectiveness of brief interventions in decreasing the national burden of drug use.	SAMHSA	2008	650,000
Specialized Centers of Research on Sex and Gender Factors Affecting Women's Health	Research Initiative	These are Specialized Centers of Research (SCORs) whose principal investigators are conducting research on the effects of sex/gender factors on health and disease.	FDA	2002	9,603,429
Standard Based Clinical Data Forms for Post Acute Care	Research Initiative	NLM is contributing to a CMS effort to develop a standardized form used to collect clinical information as patients are discharged from various care settings. NLM is creating and updating the RxTerms drug database resource, initially used to support the CARE assessment tool used by CMS.	CMS	2006	0
Standards for Genetic Testing Report	Research Initiative	Develop standard reporting format using LOINC and HL7 for NLM Personal Health Record Project and activities of the Office of Secretary.	AHRQ/CDC/OS	2007	0
Strategic Prevention Framework	Research Initiative	Initiative provides support for the cross-site evaluation of the State Incentive Grant (SIG)	SAMHSA	2005	1,949,932
Studies of HIV envelope glycoprotein gp120	Research Initiative	Basic research regarding gp120 as a potential antibody target.	FDA	2007	0
Studies on viral and host factors in transfusion-transmitted infections	Research Initiative	Supports basic research on the viral and host factors that mediate transfusion-transmitted infections.	FDA	1993	0
Study of a unique hepatitis C virus strain JFH-1 in chimpanzees	Research Initiative	The study of the biological behavior of a unique HCV strain in chimpanzees using virologic, immunologic and genetic analyses.	CDC	2005	20,000
Study of Rotavirus and Influenza Disease Patterns in the U.S.	Research Initiative	This collaboration is aimed at evaluating disease burden, transmission patterns and vaccine effectiveness for influenza and rotavirus, and emerging and remerging pathogens that are vaccine-preventable. The interest of this collaboration is to integrate comprehensive hospitalization records maintained at AHRQ with laboratory surveillance and vaccine coverage data compiled by the CDC, and apply analytical tools available at NIH/FIC and NIH/NIAID.	AHRQ/CDC	2003	10,000
Study of vitamin D levels and cancer mortality	Research Initiative	Study examines the relationship between the vitamin D metabolite (25,OH) and cancer mortality in persons aged 17+ from NHANES III and factors, including gender, BMI, smoking, and serum vitamin A.	CDC	2006	9,586

Subpopulations and Intermediate Outcome Measures in Chronic Obstructive Pulmonary Disease (COPD)	Research Initiative	SPIROMICS (SubPopulations and InteRmediate Outcome Measures In Chronic Obstructive Pulmonary Disease Study) is an observational study of COPD that seeks to identify practical intermediate outcome measures & mechanistically homogeneous subgroups of patients with the disease. The study was developed in cooperation with the FDA and plans to involve industrial partners in its implementation.	FDA	2006	0
Synthesize Peptides	Research Initiative	This project aims to construct peptides for a number of studies including the development of new therapies and vaccines for anthrax and to determine genetic susceptibility to autoimmune diseases.	FDA	2002	15,000
Systems Dynamics Modeling of Cardiovascular Disease	Research Initiative	Development of a systems dynamics model for predicting cardiovascular disease over the next thirty years and to estimate the impact of possible intervention strategies ranging from smoking cessation to changes in diet.	CDC	2008	0
TEDDY - The Environmental Determinants of Diabetes in the Young	Research Initiative	The TEDDY study focuses on determining potential environmental causes of type 1 diabetes mellitus (T1DM) in the young.	CDC	2002	18,745,948
The Community Guide: Community Preventive Services, Violence Prevention Review	Research Initiative	NIDA provides FDA (CDER) with the structures of compounds under consideration for possible development by NIDA as drug addiction treatment medications and the FDA provides NIDA with written reports detailing structure-based predictions of toxicity (e.g., carcinogenicity, teratogenicity, etc.).	CDC	2003	0
Translating Research into Action for Diabetes (TRIAD)	Research Initiative	National multi-center study created to determine how managed care systems influence the processes and outcomes of diabetes care.	CDC	1998	500,000
Treatment Options for Type 2 Diabetes in Adolescents and Youth (TODAY)*	Research Initiative	First clinical trial under the Department of Health and Human Services, to focus on type 2 diabetes in youth.	CDC	2003	11,586,909
Trends in hormone concentrations in U.S. men and relationship to endocrine disrupting chemicals in the NHANES population	Research Initiative	Serum hormone levels of men in the NHANES population are being examined to determine whether levels have declined over time and whether they correlate with serum levels of endocrine disrupting chemicals.	CDC	2008	28,868
Tribal Epidemiology Centers Program	Research Initiative	The program develops Epidemiology Centers and public health infrastructure for AI/AN communities.	IHS	2002	1,600,000
Tuberculosis (TB) Assay Study	Research Initiative	The study compares the effect of culture media on the outcome of an early marker that determines the reduction of bacterial burden in human hosts.	FDA	2006	0
Tuberculosis (TB) Trials Consortium Study 26/ACTG 5259	Research Initiative	This Phase III study assesses the effectiveness and tolerability of weekly rifapentine and isoniazid for three months versus daily isoniazid for nine months for the treatment of latent TB infection. The trial was conducted among high-risk patients, including children and HIV-positive persons who require treatment of latent infection to prevent TB.	CDC	2008	0
US-Ireland Research & Development Partnership	Research Initiative	Goal is to stimulate collaborative research between the US and Ireland in the areas of cystic fibrosis, diabetes, and nanotechnology.	OS	2006	0
Vaccines, Immunoprophylaxis, and Immunotherapy for SARS	Research Initiative	This project develops and uses animal models for SARS to evaluate candidate vaccines and immunotherapies for SARS prior to clinical testing and to study the pathogenesis of the disease.	CDC	2003	306,045
Vector Biological Studies in Leishmaniasis	Research Initiative	This project aims to define Leishmaniasis and sand fly vector-derived molecules required for transmissible infections in competent vectors. In addition, the research analyzes the host response to Leishmaniasis infections transmitted by sand fly bite with a focus on the role of dose and vector saliva to pathogenesis.	FDA	2005	655,874
Washington Circle Initiative	Research Initiative	Initiative develops and pilot tests a core set of performance measures for substance abuse treatment and prevention for use in publicly-funded and commercially-insured systems of care.	SAMHSA	1998	100,000

Association of Minority Health Professions Schools (AMHPS)	Training Initiative	Minority Internship Program.	OS	2004	1,500
Community Health Centers – Chronic Kidney Disease Pilot Project	Training Initiative	Help Community Health Centers (CHCs) improve chronic kidney disease diagnosis and management; adopt system changes; and develop a collaborative model between CHCs and the National Kidney Disease Education Program.	HRSA	2007	0
Development of curricula for nurse faculty development in genomics and genetics	Training Initiative	To prepare nurses to deliver genetically and genomically competent health care with training resources.	HRSA	2008	0
FDA/CDRH Medical Device Fellowship	Training Initiative	The Medical Device Fellowship Program offers training at the Center for Devices and Radiological Health	FDA	2006	0
Hispanic Association of Colleges and Universities (HACU)	Training Initiative	Minority Internship Program	OS	1998	29,100
Institute on Systems Science and Health	Training Initiative	A week-long course in systems science methodologies, as applied to research on health.	CDC	2008	359,043
Interagency Oncology Task Force Joint Fellowship Program	Training Initiative	Program offers fellowship training for Ph.D.s, M.D.s, and M.D./Ph.D.s or their equivalents in cancer-related scientific research and research-related regulatory review.	FDA	2005	1,568,213
International Training and Research In Environmental and Occupational Health	Training Initiative	FIC, in collaboration with NIEHS and NIOSH/CDC, has developed this program in order to train foreign health scientists, clinicians, epidemiologists, toxicologists, engineers, industrial hygienists, chemists, and allied health workers from developing countries and emerging democracies in both general environmental health and occupational health.	CDC	1995	0
Minority Access	Training Initiative	The goal of Minority Access is to increase the participation of minorities in biomedical research by identifying and honoring minority students and their supporters.	OS	2001	200,000
Minority Health and Health Disparities Summer Internship Program	Training Initiative	Program offered on behalf of the Directors of Health Promotion and Education (DHPE) to promote health and education programs, policies and funding which address the nation's leading health problems.	CDC	2006	37,200
Minority Youth Initiatives/Internship (National Hispanic Youth Initiative; National Native American Youth Initiative, National African American Youth Initiative, Association of Minority Health Professions Schools; Hispanic Association of Colleges and Universities National Internship Program)	Training Initiative	Funding contributed to HHS Office of Minority Health to support training initiatives that provide minority students with educational work experience in HHS and NIH.	OS	2001	5,000
National African-American Youth Initiative (NAAI)	Training Initiative	Minority Internship Program.	OS	2004	1,500
National Hispanic Youth Initiative (NHAI)	Training Initiative	Minority Internship Program	OS	2000	1,500
National Native American Youth Initiative (NNAI)	Training Initiative	Minority Internship Program.	OS	2000	1,500
NIDAMED materials	Training Initiative	Meeting on initial prototype and to provide feedback on documents used to develop the site and materials.	SAMHSA	2008	0
Pacific Diabetes Summit	Training Initiative	To support the planning and implementation of the DHHS Pacific Summit on Diabetes in order to prevent and control the onset of diabetes among vulnerable populations in the Pacific, and to reduce the risk and complications of diabetes in the Pacific.	OS	2008	150,000
Pharmacology Research Associate (PRAT) Program	Training Initiative	The PRAT Program is a competitive postdoctoral fellowship program for individuals with backgrounds in basic or clinical sciences wishing to pursue laboratory research at either the NIH or FDA.	FDA	2002	0

Restructuring Services for Drug Abusing TANF Women	Training Initiative	Initiative was a study to learn more about the substance abuse problems and other barriers to employment of women on TANF (Temporary Aid to Needy Families) who were identified as being dependent on alcohol or other drugs.	ACF/IHS	2007	331,184
Ruth L. Kirschstein National Research Service Award Program	Training Initiative	Awards sponsor Independent Scientist s in health services research; individual postdoctoral National Research Service Award ;Mentored Clinical Scientist Development; and variety of minority training opportunities at the predoctoral and postdoctoral levels	AHRQ	1985	7,820,000
Ruth L. Kirschstein National Research Service Award Program	Training Initiative	Dissertation grants for doctoral candidates	HRSA	1988	7,820,000
Unified Health	Training Initiative	To support continued documentation and dissemination of learning from various HRSA quality improvement collaboratives.	HRSA	2008	500,000
National Network to Eliminate Disparities in Behavioral Health (NNED)	Training Initiative	The Training Initiative supports the on-going development and implementation of the NNED.	SAMHSA	2008	500,000
Accelerating Implementation of Evidence-Based Recommendations Into Practice for the Benefit of Children with Early Hearing Loss January 23-24, 2008*	Workgroup/Workshop	The purpose of the workshop is to develop a blue-print for action to implement the many fine recommendations for improving the health and well-being of children with early hearing loss.	AHRQ/CDC/HRSA	2007	0
Acute Graft vs. Host Disease: Workshop on Clinical Trial Endpoints after Allogeneic Hematopoietic Cell Transplant	Workgroup/Workshop	This activity is to review the data that will serve as the foundation for protocol design and clinical trial evidence-based endpoints intended to support the approval of new drugs or biologics to prevent or treat acute graft vs. host disease.	FDA	2008	0
Advisory Committee on Immunization Practices Influenza Working Group	Workgroup/Workshop	Group assesses emerging vaccine issues and makes recommendations to the parent ACIP body.	CDC/CMS/FDA/HRSA/IHS	1990	0
Advisory Committee on Immunization Practices: Pneumococcal Working Group	Workgroup/Workshop	Group assesses emerging pneumococcal vaccine issues and makes recommendations to the parent ACIP body.	CDC/CMS/HRSA/IHS/OS	2008	0
Advisory group to study Excessive Alcohol Consumption	Workgroup/Workshop	Advisory group coordinates cross-agency activities and research on excessive alcohol consumption and sets priorities for research studies.	CDC	2007	0
American Indian and Alaska Native Health Communications and Information Workgroup	Workgroup/Workshop	The workgroup, which includes participants from health education and communication staff from 16 NIH Centers and Institutes, has formed a partnership with the IHS to disseminate NIH health information to approximately 1700 community health representatives.	IHS	2005	0
Analyzing IT Investments for the Enterprise Architecture Repository	Workgroup/Workshop	Invited HHS Information Architects to participate in NIH data model for investments.	OS	2008	0
Capital Planning Investment Control (CPIC) Evaluation Criteria Advisory Workgroup	Workgroup/Workshop	The Workgroup was asked to develop HHS scoring/prioritization/criteria approach for using common evaluation criteria across HHS OPDIVs for evaluating IT systems.	AHRQ/CMS/FDA/HRSA	Unreported	0
Child Abuse and Neglect Working Group/Translational Research on Child Neglect Consortium (CANWG)	Workgroup/Workshop	This federally mandated group coordinates NIH-sponsored research and training activities on prevention, treatment and services for child abuse and neglect and its negative health consequences. CANWG was established in response to a recent directive by the House Committee on Appropriations, which requested that NIH report on current NIH efforts, accomplishments, and future plans for research on child abuse and neglect.	ACF/CDC	1998	0
Classification of Traumatic Brain Injury Workshop	Workgroup/Workshop	The goal of this workshop was to identify the steps necessary for developing an anatomical classification system for traumatic brain injury that could ultimately be used to identify subpopulations of patients most likely to benefit from investigational treatments.	CDC	2008	86,221
Clinical Proteomic Technologies for Cancer (CPTC)*	Workgroup/Workshop	Standardization among technology platforms and assay standards development.	FDA	2008	0
Clinical Trial End Points for Acute Graft-vs-Host Disease After Allogeneic Hematopoietic Stem Cell Transplantation	Workgroup/Workshop	Co-sponsored with the FDA a workshop on clinical trial end points for acute graft-versus-host disease.	FDA	2008	11,600

Combination Therapies for Traumatic Brain Injury Workshop*	Workgroup/Workshop	Workshop participants identify the challenges of testing combination therapies in clinical and pre-clinical studies, and propose research methodologies and study designs to overcome these challenges.	CDC/FDA	2008	60,000
Committee to Discuss Clinical Trial Design for Influenza Therapeutics	Workgroup/Workshop	This committee discusses issues relevant to the design of clinical trials for the treatment of influenza.	OS	2008	0
Community-Based Participatory Research Scientific Interest Group	Workgroup/Workshop	The purpose of the working group is to strengthen communication among federal agencies with an interest in supporting community-based biomedical research, education, or health care delivery.	ACF/AHRQ/CDC/CMS/HRSA/IHS/SAMHSA	2006	0
Computational Modeling of Cardiovascular Devices	Workgroup/Workshop	This workshop is held to facilitate methodological improvements in the modeling that is used to develop cardiovascular medical devices.	FDA	2008	1,500
Coordinating Committee on Women's Health- Health Summit	Workgroup/Workshop	This was a workshop focused on developing the HHS OWH <i>Beyond 2010 Women's Health Agenda</i> .	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	2008	0
C-PATH Patient-Reported Outcomes (PRO) Consortium Workshop	Workgroup/Workshop	The purpose of the meeting was to develop a collaboration to facilitate the development of PRO instruments for use in clinical trials designed to evaluate the safety and effectiveness of medical products.	FDA	2008	0
Deployment Health and Safety Working Group	Workgroup/Workshop	Issues related to the health and safety of deployed ESF 8 personnel.	CDC/OS	2007	0
Development of Animal Models for Dengue	Workgroup/Workshop	Descriptive information unavailable at time of report filing.	CDC/FDA	2008	0
Drug Abuse Vulnerability and Neurodevelopmental Effects of Early Exposure to Secondhand Tobacco Smoke: Methodological Issues and Research Priorities - Workshop	Workgroup/Workshop	This one-day workshop convened an expert panel to address the methodological issues related to the measurement of secondhand smoke exposure and to identify the neurodevelopmental effects of early exposure including executive function, problem solving, decision making and early predictors of vulnerability to drug use or abuse.	CDC	2008	0
Enterprise Performance Life Cycle (EPLC) Framework Overview Document and HHS EPLC Policy	Workgroup/Workshop	NIH led on the creation of the draft EPLC Framework overview and policy document. Significant involvement with other OpDivs.	AHRQ/CDC/CMS/FDA/HRSA/OS/SAMHSA	Unreported	0
Enterprise Performance Life Cycle Artifact Development	Workgroup/Workshop	NIH led the effort to finalize artifacts for the initial EPLC phases (Initiation through Requirements Analysis). This included significant collaborations from the HHS OpDivs .	AHRQ/CDC/CMS/FDA/HRSA/OS/SAMHSA	Unreported	0
FDA-NIH Adverse Drug Reaction Workshop	Workgroup/Workshop	Workgroup exploring opportunities to explore new avenues of collaboration in adverse drug reactions.	FDA	2005	0
Federal Evidentiary Priorities Workshop, February 13, 2008	Workgroup/Workshop	The goal of the workshop was to provide the research community with research topics on clinical practice for which there are significant knowledge gaps.	AHRQ/CMS/FDA	2008	0
Federal Interagency Forum on Child and Family Statistics	Workgroup/Workshop	This working group of federal agencies collects, analyzes, and reports data on issues related to children and families. The Forum includes partners from 22 non-HHS federal agencies.	ACF/AHRQ/OS/SAMHSA	1994	0
Federal Inter-Agency Teen Dating Violence Work Group	Workgroup/Workshop	To provide a venue for keeping abreast of federal activities related to teen dating violence prevention and research	AFC/CDC	2006	0
Federal Partners Senior Workgroup on Transforming Mental Health Care in America	Workgroup/Workshop	This interagency workgroup collaborates on implementing the recommendations from the President's Freedom Commission on Mental Health.	AHRQ/CDC/CMS/HRSA/IHS/SAMHSA	2004	0
Federal Partners Senior Workgroup on Transforming Mental Health Care in America: Disaster and Emergency Response Work Group	Workgroup/Workshop	The workgroup increases communication across federal agencies on disaster behavioral health readiness and response.	ACF/CDC/CMS/HRSA/IHS/OS/SAMHSA	2005	0
Federal Partners Senior Workgroup on Transforming Mental Health Care in America: Mental Health of Returning Military Personnel Work Group	Workgroup/Workshop	This workgroup was established to increase communication across federal agencies with the goal of enhancing mental health care for military personnel.	CDC/CMS/HRSA/IHS/OS/SAMHSA	2007	0

Filoviruses: Current Status of Research into Pathophysiology and Potential Uses of Animal Models	Workgroup/Workshop	Workshop convened to discuss the current state of understanding of Filoviruses infections, knowledge gaps and research needs, the current status of research exploring animal models, and the potential role of model development in approaches to the investigation of therapeutic or vaccine strategies for Filoviruses.	CDC/FDA	2007	0
Forum on Drug Discovery, Development, and Translation	Workgroup/Workshop	The Institute of Medicine (IOM) Forum on Drug Discovery, Development, and Translation provides an opportunity for stakeholders to meet and discuss issues of mutual interest. The range of issues the Forum addresses includes the full drug development pipeline from drug discovery and regulatory approval to translation of research into clinical practice.	FDA/OS	2005	25,000
Gene Delivery to the Nervous System Workshop	Workgroup/Workshop	The workshop convened neuroscientists, molecular virologists/vectorologists, and surgical neurologists to assess the state of the art of gene therapy for neurologic diseases and brain tumors and to address the challenges for advancing promising preclinical studies to the clinic.	FDA	2008	50,000
Genome-wide association working group (GWA WG) under FDA's MicroArray Quality Control (MAQC) project	Workgroup/Workshop	Workgroup convened researchers from government agencies, academia, and industry to help provide innovative technology, methods development, vital scientific training, and technical expertise to support FDA product centers and their regulatory roles.	FDA	2008	0
Interagency Artificial Pancreas Working Group	Workgroup/Workshop	Descriptive information unavailable at time of report filing.	FDA	2007	0
Interagency Epilepsy Working Group	Workgroup/Workshop	The Interagency Epilepsy Working Group serves to increase communication between the CDC and NINDS and other NIH Institutes and Centers that support epilepsy research and to explore opportunities for increased coordination.	CDC	2003	0
Interagency Oncology Task Force (IOTF)*	Workgroup/Workshop	Cancer (CPTC) initiative includes involvement on IOTF's Molecular Diagnostics sub-committee.	CMS/FDA	2003	30,000
Lupus Federal Working Group	Workgroup/Workshop	The Future Directions of Lupus Research	AHRQ/CDC/FDA/HRSA/OS	2003	0
Mass Casualty Care/Community Planning, Healthcare & Public Health Sector R&D Executive Joint Advisory Working Group	Workgroup/Workshop	This group advises on how R&D should be directed to address mass casualty and community planning.	OS	2007	0
Mitochondrial Encephalopathies: Potential Relationships to Autism?	Workgroup/Workshop	This workshop focused on genetic analyses of mitochondrial genes that may create or modify susceptibility to autism.	CDC/FDA/OS	2008	42,850
National Forum for Heart Disease & Stroke Prevention	Workgroup/Workshop	The National Forum for Heart Disease and Stroke Prevention is made up of more than 80 individual organizations that collaborate to provide national leadership for those committed to building a heart healthy and stroke free society.	CDC	2003	0
National Institute for Occupational Safety and Health (NIOSH) Disaster Responder Safety	Workgroup/Workshop	The Workgroup examines issues related to occupational hazards and the safety of disaster responders.	CDC	2008	0
National Obesity Action Forum and other follow-up meetings to The Surgeon General's Call to Action to Prevent and Decrease Overweight and Obesity	Workgroup/Workshop	The Workgroup objective is to stimulate and share the outcomes of grass root efforts at the state and local levels to address the public health problem of overweight and obesity.	AoA/AHRQ/CDC/CMS/FDA/HRSA/IHS/OS/OSG	2001	70,000
National Partnership on Action (NPA) Federal Team	Workgroup/Workshop	The mission of the National Partnership for Action is to mobilize and connect individuals and organizations across the country to create a Nation free of health disparities, with quality health outcomes for all people.	ACF/AoA/AHRQ/CDC/FDA/HRSA/IHS/OS/SAMHSA	2005	0

Neupogen® in Strategic National Stockpile (SNS) and Future Acquisition Program to Acquire Additional Medical Countermeasures to Address Neutropenia Associated with acute radiation syndrome (ARS)	Workgroup/Workshop	This group discusses options for the acquisition of medical countermeasures to address radiation-induced neutropenia.	CDC/FDA/OS	2007	0
Organizing committee; Interagency Workshop on Standards for Toxicity Testing and Risk Assessment of Nanomaterials.	Workgroup/Workshop	This was an interagency workshop on recommendations for nanoscale material standards to be developed by NIST.	CDC/FDA	2007	0
Outcome Variables for Glaucoma Workshop	Workgroup/Workshop	NIH/FDA sponsored conference to determine how vision-related patient-reported outcomes might be used to improve medical product labeling in ophthalmology.	FDA	2007	15,000
Pandemic Influenza Vaccine Prioritization	Workgroup/Workshop	Workgroup to oversee and prioritize activities related to production and distribution of pandemic flu vaccines.	FDA/CDC/HRSA	2006	0
Personal Genomics Workshop	Workgroup/Workshop	Multidisciplinary working group reviewed and discussed the scientific basis for using genomic profiles in risk assessment and disease prevention, identified gaps in knowledge, and explored how those gaps in our knowledge base can be filled through research.	CDC	2008	0
Planning Group on Iraq Mental Health	Workgroup/Workshop	This group facilitates the re-development of Iraqi mental health services and research.	OS/SAMHSA	2003	0
Primary Care/Mental Health Integration Workgroup of the Federal Partners Senior Workgroup on Transforming Mental Health Care in America	Workgroup/Workshop	This interagency workgroup collaborates around issues related to the integration of mental health services within primary care.	AHRQ/CMS/HRSA/SAMHSA	2004	0
Project & Portfolio Tools Workgroup	Workgroup/Workshop	IT group working on improved tools for project and portfolio management.	ACF/AoA/AHRQ/ATSDR/CDC/CMS/FDA/HRSA/IHS/OS/OSG/SAMHSA	Unreported	0
Promoting Resiliency and Protecting Children from the Psychological Consequences of Violence: Recent Findings and Future Directions	Workgroup/Workshop	The workshop brought together NIH-funded scientists with reps from multiple agencies that develop policy or provide programs and services to children impacted by violence. The intent was to foster a robust discussion to improve both health policy and health research through interaction between policy makers and leading scientists in the field.	OS	2004	0
Public Health Prevention of HIV Risk Behaviors Technical Working Group(PHPEHRB TWG)	Workgroup/Workshop	Collaboration with the Office of Global AIDS Coordination (OGAC), CDC to identify and implement effective HIV prevention and treatment interventions among alcohol abusing and dependent populations.	CDC/SAMHSA	2005	0
Re-issue of “Principles of Community Engagement Booklet”	Workgroup/Workshop	Collaboration to re-issue the 1997 publication on “The Principles of Community Engagement”	ATSDR/CDC/HRSA/IHS/SAMHSA	2008	0
Research on VOIP (Voice Over Internet Protocol) solutions	Workgroup/Workshop	Conducts research on VOIP (Voice Over Internet Protocol) solutions.	FDA	2007	0
Scientific Oversight Committee for the National Cancer Institute’s Nanotechnology Characterization Laboratory (NCL)	Workgroup/Workshop	This resource and knowledge base is designed for all cancer researchers to facilitate the regulatory review of nanotechnologies intended for cancer therapies and diagnostics.	FDA	2007	0
Strengthening Newborn Screening in the Middle East and North Africa	Workgroup/Workshop	Workgroup continues to work on the growing need for neonatal screening through its Strengthening Newborn Screening in the Middle East and North Africa Initiative.	CDC/HRSA	2008	5,000
Suicide Research Consortium	Workgroup/Workshop	The consortium coordinates program development in suicide research, stimulates extramural research on suicide and disseminates science-based information on suicidology.	CDC/IHS/SAMHSA	1990	0
Teen Dating Violence: Developing A Research Agenda to Meet Practice Needs	Workgroup/Workshop	Goal is to develop a research agenda on teen dating violence.	CDC/HRSA/IHS/OS	2007	5,000

Telecommunications support and contract support for WITS telecommunications contract and the Network contract	Workgroup/Workshop	NIH provides telecommunications support and contract support for the WITS telecommunications contract and the Network contract.	FDA/HRSA/IHS/SAMHSA	2001	0
Terminology Resources: NCI Enterprise Vocabulary Services	Workgroup/Workshop	Services designed to develop and support controlled terminology of more than 10,000 FDA terms and codes stored in the NCI Thesaurus (NCIt).	FDA	2004	0
The Community Guide: Chapter 9 _ Violence Prevention	Workgroup/Workshop	Worked to develop a Community Guide chapter on reducing disease, injury and impairment through violence prevention.	CDC	2002	0
The Trans-NIH Rare Diseases Research Working Group	Workgroup/Workshop	The working group brings together representatives of the NIH ICs and offices and the FDA to discuss issues related to rare diseases research.	FDA	2004	0
Tobacco Cessation Among Low-Income Women	Workgroup/Workshop	Representatives from NIH Institutes and Centers, from the Indian Health Service, and from the DHHS administrative office meet monthly to share information about relevant activities, and to plan collaborative activities. During this past year, the group organized and sponsored a day-long workshop featuring invited experts presenting data and recommendations about approaches to tobacco cessation for low-income women.	IHS	2007	0
Trans-HHS Taskforce on Harmonization of Ethical and Legal Policies Related to the Use of Human Specimens and Data in Research (HELPS)	Workgroup/Workshop	The Trans-HHS Taskforce on Harmonization of the Ethical, Legal and Policy Issues Related to Specimens and Data (HELPS) explores ways of harmonizing federal regulations and policies related to research involving human specimens and data. HELPS is chaired by NIH/OBA.	AHRQ/CDC/FDA/OS	2006	0
Youth Tobacco Cessation Collaborative (YTCC)	Workgroup/Workshop	The Youth Tobacco Cessation Collaborative (YTCC) was formed in 1998 to address the gap in knowledge about what cessation strategies are most effective in assisting youth to quit smoking. Collaborative members represent major organizations that fund research, program, and policy initiatives related to controlling youth tobacco use.	CDC	1998	0
